G&J PASSIONATE PRESS

PROGRESS TRACKER

HIS TRANSFORMATION RECORD

This **Progress Tracker** is not just about completing tasks.
It is about tracking his transformation.

The purpose of this system is to **allow you to see his growth clearly and consistently** - measured through structured **Levels from 1 to 14**. Each level represents a new stage in his development, mindset, and performance.

Before starting each level, you may present the **Reward he will earn** after successfully completing **10 tasks** from that section. The reward sets the motivation. The tracker records the progress.

At every level, you **choose 10 tasks out of the 50 available in that section** - selecting the ones that interest you most. After he completes each task, you evaluate it carefully:

- *Write down the **task number** from the list (for example: #67).*
- *Briefly **describe** what the task involved.*
- ***Rate** his performance in the 3 evaluation categories (1-5 scale).*
- *Give an **overall performance rating** for that specific task.*

After all 10 tasks in the level are completed, you make the **final decision:**

- ***Promote** him to the next level.*
- *Assign an **additional** challenge.*
- *Require him to **repeat tasks** whise he received a 1 or 2 rating.*

This tracker **transforms 700 ideas into a structured progression system.** It creates accountability. It builds measurable development. It turns isolated tasks into a clear path forward.

With this system, you don't just complete tasks.
You build progression.
