BONDAGE TAPE

Bondage Tape

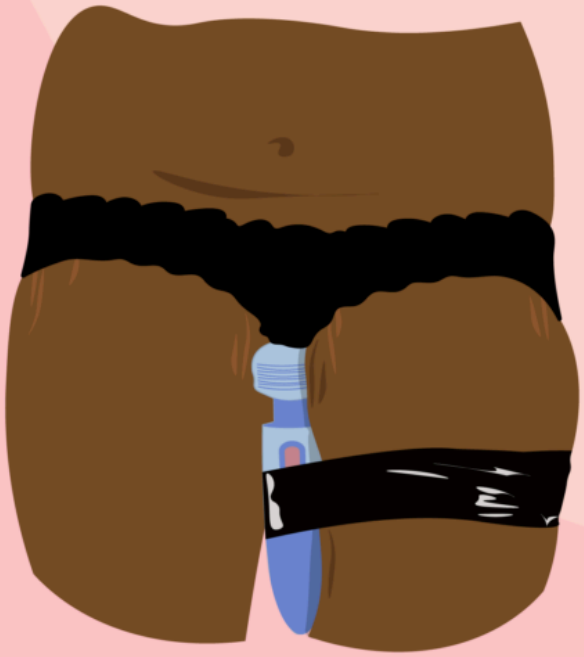
Bondage tape is one of the most versatile and exciting tools in bondage. Unlike regular duct tape, **bondage tape is specially designed not to stick to skin or hair** – it only adheres to itself. This makes it incredibly easy to apply, adjust, and remove, while still providing extremely strong and restrictive bondage.

Its smooth, slightly shiny surface looks incredibly sexy on the skin, and because it can be wrapped tightly in multiple layers, it allows for everything from light restraint to near-complete immobilization. You can use it alone or combine it with cuffs, spreader bars, or other toys to create even stricter positions.

Key features:

- Does not stick to skin or hair
- Extremely strong when wrapped in layers
- Easy to tear by hand
- Creates a beautiful, glossy “second skin” effect
- Perfect for quick bondage and long-term mummification

Safety tip: Always keep safety scissors nearby. Never wrap bondage tape too tightly around the neck, chest, or in a way that restricts breathing or blood circulation.



BONDAGE TAPE

BONDAGE TASKS

- [ ] 1. Wrap her wrists together with multiple layers of bondage tape. Her task is to give you a handjob while her hands are tightly bound together. Watch her struggle and get creative with her limited movement until you cum.

- [ ] 2. Bind her wrists together with bondage tape and lay her on her back on the bed. Pin her taped wrists above her head with one hand while you fuck her hard and deep, using the tape as leverage to control her completely.

- [ ] 3. Bind her wrists behind her back with bondage tape and seal her mouth shut with several strips. Order her to kneel in front of you and worship your cock without hands, without words, and without using her mouth – only her face, lips, and desperation. Test how creative and eager she can be, then rip the tape from her mouth and let her continue properly with her tongue and mouth.

- [ ] 4. Bind her wrists tightly behind her back with bondage tape, then bend her over the edge of the bed. Fuck her hard from behind, gripping the tape around her wrists with one hand and pulling her hair with the other for maximum control.

- [ ] 5. Bind her wrists tightly behind her back with bondage tape, then wrap several layers around her eyes and mouth, creating a secure blindfold and gag. Make her kneel in front of you. Rub your cock across her face and press it against the tape over her mouth and under her nose, teasing her. Finally, rip the tape off her mouth and order her to take you deep into her mouth.

BONDAGE TAPE

BONDAGE TASKS

- ☐ 6. Tape her securely to a chair using bondage tape — bind her ankles to the chair legs and her arms tightly behind her back. Stand in front of her and order her to suck your cock like a helpless hostage, completely unable to move or resist.

- ☐ 7. Tell her to bind her own wrists and arms with bondage tape exactly as you instruct. Once she has fully restrained herself, reward her obedience by fucking her however you desire.

- ☐ 8. Bind her wrists tightly behind her back with bondage tape. Command her to straddle you and ride your cock, using only the movement of her hips and legs while her arms remain useless behind her.

- ☐ 9. Wrap her upper body with bondage tape from her shoulders down to her hips, pinning her arms tightly against her sides. Lay her on the bed and fuck her while her entire torso is compressed and immobilized by the tape.

- ☐ 10. Tape her ankles together tightly with bondage tape while she lies on the bed. Grab her bound legs, lift them high over your shoulders, and fuck her deeply in this folded, vulnerable position.

- ☐ 11. Create a full tape outfit for her using bondage tape. Wrap her breasts tightly, cover her ass and hips, and run strips between her legs to create a sexy, restrictive tape outfit. Once she's properly dressed, bind her wrists behind her back with more tape and fuck her hard while she remains trapped in her glossy tape lingerie.

BONDAGE TAPE

BONDAGE TASKS

- [ ] 12. Have her lie down on the table and securely tape her wrists, ankles, and torso to the tabletop using multiple layers of bondage tape. Spread her legs wide and tease her mercilessly with a vibrator, edging her for as long as you desire while she lies completely helpless.

- [ ] 13. Instruct her to tape you securely to a chair using plenty of bondage tape. Once you're fully restrained, she must kneel between your legs and give you an intense, passionate blowjob while you're bound and unable to touch her.

- [ ] 14. Take her by surprise on the kitchen counter. Quickly bind her wrists tightly behind her back with bondage tape, bend her over the counter, and fuck her hard. Hold her taped wrists with one hand and press her head down against the counter with the other, using her roughly.

- [ ] 15. Bind both her wrists behind her back and her ankles together with bondage tape while she's standing. Command her to hop to you. Once she reaches you, she must kneel and give you a devoted blowjob, still wearing the restrictive ankle tape.

- [ ] 16. Bend her over the edge of the bed, bind her wrists tightly behind her back with bondage tape, then tape her ankles together. Take a belt or spanking tool and give her 10 firm, deliberate strokes on her exposed ass before using her.

- [ ] 17. Make her kneel on the bed or floor. Bind her wrists securely behind her back with bondage tape, then push her forward so she lands in a face-down, ass-up position. Immediately enter her or tease her exposed pussy with a vibrator while she remains helpless.

- ☐ 18. Bind her wrists tightly behind her back with bondage tape and order her to kneel in front of you. She must open her mouth, stick her tongue out, and remain completely still for 3 full minutes while maintaining eye contact with you. Walk around her, observe her, and tease her. If she moves even slightly, reset the timer.

- ☐ 19. Bind her wrists together with bondage tape and lay her on her back on the bed. Pin her taped hands above her head while she gives you a slow, deep blowjob from below.

- ☐ 20. Bind her wrists behind her back and wrap multiple tight layers of bondage tape around her thighs, sealing them together from knees to hips. Lay her on her back, spread her taped legs as far as the tape allows, grab her throat, and fuck her long and deep.

WRIST CUFFS

Wrist Cuffs

Wrist cuffs are the **foundation of many bondage experiences** — classic, versatile, and incredibly effective. Whether made of soft leather or sturdy fabric, they instantly transform her wrists into points of control, allowing you to restrain, position, and dominate her with ease.

Simple to put on yet difficult to escape, wrist cuffs provide a **perfect balance** between comfort for longer sessions and strict restraint for intense play. They can be locked in front, behind her back, attached to other restraints, or secured to furniture, making them one of the **most practical** and frequently used tools in dominance and submission.

Key features:

- Quick and easy to apply
- Excellent for both beginner and advanced play
- Can be used in countless positions (behind the back, in front, overhead, etc.)
- Creates an immediate feeling of helplessness and ownership
- Works beautifully alone or combined with other restraints

Wrist cuffs turn her hands - usually her most useful tool - into a symbol of surrender. Once they click or buckle shut, her ability to resist, touch herself, or control the situation disappears, leaving her body open and available for your desires.

Safety note: Always ensure the cuffs are not too tight (you should fit two fingers between the cuff and wrist). Keep keys or quick-release mechanisms accessible, and never leave her unattended in any restraint.

- ☐ 21. Tie her wrists tightly behind her back with the cuffs. Order her to kneel in front of you, thighs spread wide. She must give you a slow, deep blowjob while keeping constant eye contact. Every time she breaks eye contact, she gets face-slapped.

- ☐ 22. Cuff her hands in front of her body. Make her lie on her back on the bed with her legs spread. She has to use both cuffed hands to rub her clit and finger herself while you watch. She is not allowed to cum until you give her explicit permission.

- ☐ 23. Cuff her wrists together in front of her. Wrap bondage tape around her head, covering her eyes completely (blindfold), then tape her cuffed hands to the back of her head. Make her suck your cock blindly while you control the depth and speed by holding the tape on her head.

- ☐ 24. Cuff her wrists together in front. Have her stand with legs shoulder-width apart and hands raised above her head (or pressed against the wall). Tease her nipples, clit, and pussy with your hands and mouth until her legs are shaking. You can attach the handcuffs to a hook or a ceiling lamp.

- ☐ 25. Lock her wrists behind her back. Command her to crawl to you on her knees across the room. When she reaches you, she must nuzzle and worship your cock and balls with her face and tongue only.

- ☐ 26. Cuff her hands in front of her. Sit comfortably on the couch and make her straddle you. She has to ride you slowly, using only her hips while her cuffed hands rest against your chest. You control the pace by gripping her hips or the cuffs.

- [ ] 27. Fasten her wrists together behind her. Have her lie face down on the bed. Pull her hips up into a face-down ass-up position and use her freely while her upper body remains pressed against the mattress.

- [ ] 28. Cuff her wrists in front and attach them to a collar (or a short chain around her neck). Make her serve you dinner or drinks, moving carefully so the chain doesn't pull too hard. Every mistake earns her a punishment.

- [ ] 29. Lock her hands behind her back. Sit her on the edge of the bed or a chair with legs spread wide. Edge her with a vibrator or your fingers while she begs - she may not close her legs or move her cuffed hands to stop you.

- [ ] 30. Cuff her wrists together in front. Have her lie on her back with her arms stretched above her head. Tie the cuffs to the headboard or hold them down with one hand while you fuck her slowly and deeply, forcing her to stay open and vulnerable.

- [ ] 31. Lock her wrists together behind her back with the cuffs, then wrap several layers of bondage tape around her forearms, pulling them tightly together from elbows to wrists. This creates a strict armbinder effect. Bend her over and fuck her hard from behind while holding the tape.

- [ ] 32. Cuff her wrists in front of her body. Wrap bondage tape around her hands and fingers, turning them into useless, taped mitts. She must now try to stroke your cock and rub her own pussy using only her taped, helpless hands.

- [ ] 33. Secure her wrists behind her back with cuffs. Wrap the bondage tape around her upper arms and chest, pinning her arms tightly to her body. Make her kneel and give you a blowjob with no hands at all – only her mouth and throat.

WRIST CUFFS

- [ ] 34. Put the wrist cuffs on her and lock them in front. Tape her cuffed wrists directly to her thighs with multiple tight loops of bondage tape. Force her to stand with legs apart while you tease and edge her with a vibrator. She cannot close her legs or move her hands away.

- [ ] 35. Cuff her hands behind her back. Wrap bondage tape around her waist and pull her cuffed wrists against her lower back, taping them firmly to her body. Put her in a doggy style position and use her freely, pulling on her hair or hips for deeper control.

- [ ] 36. Lock her wrists together in front with the cuffs. Wrap bondage tape around her breasts in a tight figure-eight pattern, then tape her cuffed wrists against her chest, pressing her hands into her own tits. Make her ride you cowgirl while her taped breasts bounce in her face.

- [ ] 37. Cuff her wrists tightly behind her. Sit her on a chair or the edge of the bed, spread her legs wide, and tape each thigh to the corresponding calf so she stays in a frogtie position. Tease her exposed pussy mercilessly with your fingers, tongue, and toys.

- [ ] 38. Put wrist cuffs on her in front. Wrap long strips of bondage tape from her cuffed wrists all the way up her arms to her shoulders, creating full arm restraints. Command her to lie on her back with arms stretched above her head while you fuck her in missionary, holding her taped arms down.

- [ ] 39. Lock her wrists behind her back with cuffs. Tape her ankles together with bondage tape, then connect the ankle tape to the wrist cuffs with another piece of tape, forcing her into a mild hogtie on the bed. Tease her with slow penetration and spanking while she struggles.

- [ ] 40. Secure her wrists behind her back. Bend her over the edge of the bed or couch and take her from behind. Pull on the chain or D-ring of the cuffs to control her movements and keep her exactly where you want her.

ANKLE CUFFS

Ankle Cuffs

Ankle cuffs are a powerful and often underestimated tool in bondage. While wrist cuffs control her hands, **ankle cuffs control her movement, balance, and posture** – instantly making her feel more vulnerable and restricted.

Whether they are elegant leather cuffs, sturdy fabric straps, or classic chain-style designs, ankle cuffs limit how far she can step, how widely she can spread her legs, and how freely she can move. **They turn simple actions** like walking, kneeling, or crawling into deliberate, **submissive acts.**

Key features:

- Perfect for restricting stride and forcing small, delicate steps
- Excellent for spreading her legs wide or keeping them tightly together
- Creates beautiful tension in the legs and ass during sex
- Can be connected to wrist cuffs, spreader bars, or furniture
- Highly effective for both teasing and hard use

Ankle cuffs shift the dynamic immediately. With every restricted step, every awkward crawl, and every forced wide stance, she is reminded that her mobility now belongs to you. They work beautifully on their own or combined with wrist cuffs for more complex restraint systems.

Safety note: As with all restraints, ensure the cuffs are not too tight – you should always be able to slide two fingers between the cuff and her ankle. Pay special attention to circulation during longer sessions, especially if she is standing or in positions where her legs are elevated.

ANKLE CUFFS

BONDAGE TASKS

- ☐ 41. Lock the ankle cuffs around both her ankles. The short chain forces her to take small, delicate steps. Order her to walk slowly across the room to bring you a drink or fetch an item, watching how the cuffs and chain restrict her movement.

- ☐ 42. Put the ankle cuffs on her. Make her kneel in front of you with her cuffed ankles pressed together. She must give you a long, slow blowjob while staying balanced on her knees with restricted leg movement.

- ☐ 43. Secure the ankle cuffs on her ankles. Bend her over the bed or couch so her upper body rests on the surface. Fuck her from behind while the short chain keeps her ankles close together, making her feel tighter and more helpless.

- ☐ 44. Lock the ankle cuffs tightly. Have her lie on her back with her legs slightly bent. Push her knees toward her chest and hold the chain or cuffs while you fuck her deeply in a modified missionary position.

- ☐ 45. Put the ankle cuffs on. Command her to crawl to you on all fours across the room. The short chain between her ankles makes the crawling slow, awkward, and deeply submissive.

- ☐ 46. Lock her ankles in the cuffs. Sit on the edge of the bed or chair and make her straddle you. With her ankles cuffed close together, she has to ride you with small, controlled movements, staying pressed tightly against you.

- ☐ 47. Secure the ankle cuffs on her. Have her stand with feet close together, hands behind her back. Tease her breasts, nipples, and clit with your hands and mouth while she struggles to keep balance with the restricted ankles.

ANKLE CUFFS

BONDAGE TASKS

- ☐ 48. Put the ankle cuffs on her. Make her lie face down on the bed. Lift her hips into a face-down ass-up position by holding the chain or cuffs and take her hard from behind, using the restriction to control her posture.

- ☐ 49. Lock the ankle cuffs around her ankles. Order her to stand with legs as far apart as the chain allows and lean forward with hands on the wall or knees. Spank her and finger her from behind while she stays in this vulnerable, restricted stance.

- ☐ 50. Secure the ankle cuffs on. Have her lie on her back and pull her cuffed ankles up and back toward her head (as far as the chain permits). Hold the chain while you fuck her in a deep, folded position, making her feel completely exposed and controlled.

- ☐ 51. Lock the ankle cuffs around her ankles. Add wrist cuffs behind her back and a blindfold. Make her crawl blindly to you across the room. When she reaches you, she must use only her mouth to worship your cock while her restricted ankles and wrists keep her movements clumsy and helpless.

- ☐ 52. Secure the ankle cuffs on her. Wrap bondage tape tightly around her thighs and calves, forcing her legs into a bent frogtie position. Have her lie on her back with legs spread as much as the tape and chain allow while you tease her clit with a vibrator until she begs.

- ☐ 53. Put the ankle cuffs on her. Lock her wrists together in front with wrist cuffs and attach them to the ankle chain with a piece of bondage tape. This creates a strict hogtie-like position on the bed. Tease and edge her exposed pussy and ass slowly with your fingers and tongue.

ANKLE CUFFS

BONDAGE TASKS

- ☐ 54. Lock the ankle cuffs tightly. Gag her with a ball gag, then bend her over the bed and fuck her hard from behind. The short chain keeps her ankles close together, making every thrust feel more intense and restricted.

- ☐ 55. Secure the ankle cuffs on. Cuff her wrists behind her back and wrap bondage tape around her upper arms and torso, pinning her arms tightly to her body. Make her straddle you on the chair and ride your cock with limited leg movement, forcing small, desperate hip motions.

- ☐ 56. Put the ankle cuffs on her ankles. Blindfold her and make her stand with feet as far apart as the chain allows. Use a vibrator on her clit and nipples while you spank her ass. She must stay in position even when her legs start shaking.

- ☐ 57. Lock the ankle cuffs. Attach wrist cuffs in front of her and tape her cuffed wrists directly to her chest. Have her lie on her back with ankles cuffed and legs pulled up high while you fuck her deeply, controlling her folded body by holding the ankle chain.

- ☐ 58. Secure the ankle cuffs on her. Put a blindfold and ball gag on her, then make her kneel in front of you with ankles cuffed. She must give you a slow, messy blowjob while you control the rhythm by holding her hair and the chain between her ankles.

- ☐ 59. Lock the ankle cuffs around both ankles. Wrap several layers of bondage tape around her waist and connect it to the ankle chain, limiting how high she can lift her hips. Fuck her in doggy style while pulling on the tape and chain for deeper control.

ANKLE CUFFS

BONDAGE TASKS

- ☐ 60. Put the ankle cuffs on. Cuff her wrists behind her back and add a powerful vibrator taped against her clit. Make her stand in the corner or walk slowly around the room while the combination of cuffs and vibrator teases her mercilessly until you decide she's earned an orgasm.

METAL HANDCUFFS

Metal Handcuffs

Metal handcuffs represent a significant step up in intensity and psychological dominance. Unlike soft leather or fabric cuffs, cold steel handcuffs carry a strong, **unmistakable sense of real restraint** - the kind used by law enforcement. The distinctive click as they lock around her wrists creates an immediate, powerful shift in power dynamics.

Once they snap shut, **there is no easy escape.** No buckles to loosen, no Velcro to tear - only the key will set her free. This irreversibility makes metal handcuffs particularly effective for building deep feelings of helplessness, vulnerability, and surrender.

Key features:

- Extremely secure - impossible to escape without the key
- The cold, unforgiving feel of steel against skin
- Classic ratchet mechanism with signature clicking sound
- Strong visual and psychological impact
- Perfect for strict control and power exchange play

Metal handcuffs excel at positions where **complete control is desired** - whether her hands are behind her back, above her head, or attached to other restraints. They are especially powerful in roleplay scenarios (arrest, interrogation, corrupt authority) and when you want her to feel truly owned and powerless.

Safety note: Metal handcuffs can tighten further if she struggles, so always monitor her closely. Never leave her in metal handcuffs unattended. Always keep the keys easily accessible and test the double-lock mechanism (if available) to prevent accidental tightening.
Check circulation regularly by ensuring you can slip a finger between the cuff and her wrist.

METAL HANDCUFFS

BONDAGE TASKS

☐ 61. Snap the cold metal handcuffs tightly around her wrists behind her back. Tell her she won't get the key until she makes you cum twice with only her mouth. She must kneel and worship your cock desperately, knowing her freedom depends on how well she pleases you.

☐ 62. Lock her wrists in the metal handcuffs in front of her body. Push her against the wall, raise her arms above her head and hook the chain over a sturdy hook. Tease and fuck her while she stands completely helpless and stretched.

☐ 63. Cuff her hands tightly behind her back with the metal handcuffs. Order her to crawl around the room searching for the hidden key while you follow behind, spanking her and using her whenever you want. She only earns the key once she's brought it back in her mouth.

☐ 64. Put the metal handcuffs on her wrists behind her back. Bend her over the bed and take her hard from behind. Pull on the handcuffs like handles to yank her back onto your cock with every thrust, reminding her how little control she has.

☐ 65. Lock the metal handcuffs on her wrists in front. Make her lie on her back on the table or bed with her cuffed hands pinned above her head by one of your hands. Fuck her slowly and deeply while looking straight into her eyes, emphasizing her total vulnerability.

☐ 66. Secure her wrists with the metal handcuffs behind her back. Tell her the key is frozen inside an ice cube. She must use only her mouth to get it while you use her ass or pussy whenever she slows down.

METAL HANDCUFFS

BONDAGE TASKS

- ☐ 67. Snap the metal handcuffs around her wrists. Sit comfortably in a chair and order her to straddle you. With her hands cuffed behind her, she has to ride you using only her legs and hips while you grip the chain and control the rhythm.

- ☐ 68. Roleplay – Corrupt Policeman: Put her in metal handcuffs behind her back and tell her she's been a very bad girl. As the arresting officer you "found" illegal toys in her bag. She must now convince you not to take her to the station by kneeling, sucking your cock, and letting you fuck her over the "police car" (couch or bed) however you demand.

- ☐ 69. Lock her wrists in the metal handcuffs in front of her. Attach the chain to a collar around her neck with a short rope or carabiner so her hands are forced high on her chest. Make her serve you a drink, massage you, and worship your cock while constantly fighting the restrictive position.

- ☐ 70. Cuff her tightly with the metal handcuffs behind her back. Blindfold her and tell her the key is somewhere in the bedroom. She has 10 minutes to find it on her knees. Every time you catch her, you fuck her in whatever position you choose until the timer runs out. If she fails, the cuffs stay for 1 more hour of your free play.

- ☐ 71. Lock her wrists tightly behind her back with the metal handcuffs. Add ankle cuffs and connect them with bondage tape to create a strict hogtie. Leave her like that on the bed, insert a vibrator on low speed and make her struggle and beg while you watch and occasionally spank her.

METAL HANDCUFFS

BONDAGE TASKS

- [ ] 72. Snap the metal handcuffs on her wrists behind her back. Put a ball gag in her mouth, then bend her over the couch and fuck her hard from behind. Pull on the handcuffs with every thrust to remind her she has zero chance of escaping.

- [ ] 73. Secure her in the metal handcuffs in front of her body. Wrap bondage tape around her elbows, pulling them closer together, then blindfold her. Make her kneel and give you a deep, blind, gagged blowjob while you control her head by the hair and handcuff chain.

- [ ] 74. Lock the metal handcuffs behind her back. Attach ankle cuffs with a short chain and make her crawl around the room to find the key you hid. Every time she stops or slows down, turn on the vibrator you previously taped to her clit and leave it running until she moves again.

- [ ] 75. Put the cold metal handcuffs on her wrists behind her. Have her lie on her back, lift her cuffed ankles (with ankle cuffs on) high and hold them while you fuck her in a deep piledriver position. The metal on her wrists makes every movement a reminder of her helplessness.

- [ ] 76. Cuff her wrists with the metal handcuffs in front. Tape a powerful wand vibrator tightly against her clit, then make her straddle you on the chair. She has to ride you while the vibrator drives her crazy and the metal cuffs prevent her from removing it.

- [ ] 77. Lock her in the metal handcuffs behind her back. Wrap her entire upper body and arms with multiple layers of bondage tape, creating full mummification from shoulders to wrists. Put her on her knees and use her mouth freely while she can barely move.

METAL HANDCUFFS

- ☐ 78. Secure the metal handcuffs tightly behind her. Add ankle cuffs, a blindfold and a ball gag. Place her in the corner on her knees facing the wall and leave her there for 10–15 minutes with a vibrator inside her, coming back occasionally to tease or fuck her.

- ☐ 79. Snap the metal handcuffs on her wrists in front of her. Make her stand with legs spread, then connect the handcuff chain to her ankle cuffs with bondage tape, forcing her to stay bent over. Spank her, finger her, and fuck her from behind while she remains trapped in this exposed position.

- ☐ 80. Lock her wrists in the metal handcuffs behind her back. Tell her she won't be released until she cums at least three times. Tape a vibrator firmly to her clit, add ankle cuffs to keep her legs apart, and watch her writhe, moan, and desperately hump the air until she breaks.

BED CUFFS

Bed Cuffs

Bed cuffs, also known as under-bed restraints or bed bondage systems, are **one of the most practical** and powerful tools for full-body restraint. This system consists of straps that slide under the mattress, with cuffs at all four corners, allowing you to secure her wrists and ankles to the bed in a variety of positions.

What makes bed cuffs special is their ability to turn an ordinary bed into a **complete bondage station** without the need for hooks, frames, or permanent installations. They provide strong, reliable restraint while remaining relatively comfortable for longer sessions.

Key features:

- Turns any bed into a bondage playground
- Allows easy spread-eagle positions (on back or stomach)
- Excellent for both light teasing and strict, helpless immobilization
- Quick to set up and put away
- Can be used with wrists only, ankles only, or all four limbs
- Perfect for long, uninterrupted play sessions

With bed cuffs she can be displayed, teased, edged, or used in complete spread-eagle vulnerability - either face up, completely open and exposed, or face down in a helpless prone position. **The restraints keep her exactly where you want her**, giving you full access to every part of her body while she remains securely fastened to the bed.

Safety note: Always make sure the mattress is thick enough for the straps to hold firmly. Check the tension of the straps regularly - they should be tight enough to restrict movement but not so tight as to cause numbness or discomfort in the joints. Keep scissors or quick-release keys within reach.

BED CUFFS

BONDAGE TASKS

- ☐ 81. Secure her wrists and ankles to the bed cuffs, spreading her wide on her back in a perfect X position. Sit at the edge of the bed and tease her slowly with your fingers, tongue, and cock, making her feel completely exposed and unable to close her legs or move away.

- ☐ 82. Lock her spread eagle on her back with the bed cuffs. Blindfold her and spend a long time kissing, licking, and biting her body from neck to inner thighs, edging her with a vibrator until she's shaking and begging.

- ☐ 83. Fasten all four bed cuffs tightly, securing her on her stomach with arms and legs spread wide. Run your hands over her ass and back, spank her thoroughly, then take her from behind while she remains helplessly pinned to the mattress.

- ☐ 84. Put her in the bed cuffs on her back, wrists and ankles stretched to the corners. Climb on top of her and fuck her slowly in missionary, holding eye contact the entire time while she can't wrap her arms or legs around you.

- ☐ 85. Secure her facedown with the bed cuffs, pulling the straps so her body is tight against the bed. Use her ass freely, alternating between spanking, fingering, and deep penetration while she can barely move her hips.

- ☐ 86. Lock her spread wide on her back using the bed cuffs. Place a vibrator on her clit and leave it there on a low setting while you sit beside her, stroking yourself and watching her struggle and moan helplessly.

- ☐ 87. Attach her wrists and ankles to the bed cuffs in a tight X position on her back. Tease her nipples with your mouth and fingers while fucking her with a dildo, making her desperate to be filled by you instead.

BED CUFFS

BONDAGE TASKS

- ☐ 91. Secure her spread eagle on her back with the bed cuffs, pulling the straps extra tight so she can barely move. Gag her with a ball gag and blindfold her completely. Tease her entire body with ice cubes, feathers, and your tongue for a long sensory session.

- ☐ 92. Lock her facedown with the bed cuffs, arms and legs stretched wide. Place a thick pillow under her hips to lift her ass. Fuck her deeply from behind while she remains helplessly pinned to the mattress.

- ☐ 93. Fasten her spread wide on her back using all four bed cuffs. Add a ball gag and blindfold. Use a powerful wand vibrator on her clit and nipples, edging her repeatedly while she drools and strains against the restraints.

BED CUFFS
BONDAGE TASKS

☐ 95. Lock her in a spread eagle position on her back with the bed cuffs. Apply a blindfold, ball gag and noise-canceling headphones for full sensory deprivation. Spend time touching, licking, and fucking her very slowly, letting her only feel and anticipate what comes next.

☐ 96. Secure her facedown with the bed cuffs, legs spread wide. Insert a remote-controlled vibrator inside her, turn it on low, and leave the room for a few minutes. Return to spank her and increase the intensity until she's shaking.

☐ 97. Fasten her spread eagle on her back with the bed cuffs. Put a ball gag in her mouth, then climb on top and fuck her in missionary position, slowly and deliberately, while she can only moan into the gag and look at you helplessly.

☐ 98. Lock her on her stomach with the bed cuffs pulled very tight. Sit on her lower back or thighs and give her a long, firm spanking and ass massage before sliding into her from behind and using her at your own pace.

☐ 99. Secure her spread wide on her back using the bed cuffs. Blindfold her and place a wand vibrator taped or held firmly against her clit. Bring her right to the edge multiple times, stopping completely until her begging becomes desperate.

☐ 100. Fasten all four limbs with the bed cuffs in a tight spread eagle on her back. Remove the ball gag temporarily and order her to beg and tell you exactly how she wants to be fucked — then gag her again and give it to her exactly how you decide.

OVER-THE-DOOR RESTRAINTS

Door Cuffs

Over-the-door restraints are a simple yet incredibly effective bondage system that turns any **standard door into an instant restraint point.** The set typically consists of two long straps that go over the top of the door, with wrist cuffs hanging on the other side. When the door is closed, her wrists are pulled high above her head, leaving her standing, stretched, and completely vulnerable.

This type of restraint is **perfect for quick setup and spontaneous play.**
It requires no permanent installation and works in almost any room with a door. The position it creates - arms stretched high, body exposed, balance slightly challenged - is both visually stunning and psychologically powerful.

Key features:

- Extremely easy and fast to set up
- Forces her arms high above her head, creating an elongated, vulnerable silhouette
- Perfect for standing positions, teasing, breast play, spanking, and fucking from behind
- Can be used facing the door or with her back to it
- Great for both short, intense sessions and longer teasing

Once her wrists are locked in and the door is shut, she is effectively trapped in place.
She can't lower her arms, can't easily turn around, and must surrender to whatever you decide to do with her exposed body. The feeling of **being "on display"** and unable to hide makes this one of the most mentally intense restraints despite its simplicity.

Safety note: Always ensure the door is sturdy and cannot be opened accidentally. Check that the straps are properly centered and cannot slip off the top of the door. Monitor her shoulders and wrists carefully - do not leave her in this position for too long, especially with arms fully extended overhead. Have quick access to release her if needed.

SPREADER BAR

Spreader Bar

The spreader bar is a classic and highly effective bondage tool designed to **keep her legs spread apart**, exposing her most intimate areas and limiting her movement.
It consists of a rigid bar (usually metal) with adjustable cuffs at both ends, allowing you to control exactly how wide her legs are forced open.

This simple but powerful device dramatically **changes her posture, balance, and accessibility.** It prevents her from closing her legs, makes walking difficult or impossible, and creates a constant feeling of vulnerability and availability.

Key features:

- Forces her legs open in a wide, exposing stance
- Can be used on ankles only or combined with wrist cuffs for full-body restraint
- Excellent for both standing and lying positions
- Creates beautiful tension in the thighs, ass, and lower back
- Works wonderfully for teasing, oral, spanking, and deep penetration
- Comes in different lengths — from short (for close restriction) to long (for maximum spread)

Whether you use it to make her stand helplessly exposed, bend her over, or hold her legs high in the air during sex, the **spreader bar gives you precise control over her lower body** while leaving her upper body free — or you can combine it with other restraints for total helplessness.

Safety note: Always start with a moderate spread and gradually increase the width.
Ensure the cuffs are properly padded and not too tight. Pay attention to her hips and knees - do not force an uncomfortable angle for too long.

☐ 123. Attach her ankles to the spreader bar and make her lie on her back. Push her legs back toward her head and fuck her in a deep, folded position while the bar keeps her completely open.

☐ 124. Lock her ankles wide with the spreader bar. Command her to kneel on the floor with the bar behind her. She must give you a slow, sloppy blowjob while struggling to keep balance with her legs spread.

☐ 125. Secure her wrists behind her back and ankles to the spreader bar. This creates a strict bent-over position. Spank her ass thoroughly before sliding into her from behind and using her deeply.

☐ 126. Put her ankles on the spreader bar and have her lie on her back with the bar resting on the bed. Tease her clit with a vibrator and your tongue, making her try (and fail) to close her legs.

HOGTIE RESTRAINT SYSTEM

Hogtie Restraint System

The hogtie is one of the **most iconic and intense forms of bondage.** It combines wrist and ankle restraints, **pulling them together behind her back** to create a strict, arched position that leaves her completely helpless and beautifully displayed.

A dedicated hogtie restraint system usually consists of cuffs for the wrists and ankles connected by adjustable straps or chains with a central D-ring or locking point.
This allows you to control exactly how tight the hogtie becomes - from a mild arch to a very strict, back-bending position.

Key features:

- Creates extreme restriction and helplessness
- Forces a highly erotic, arched position (back curved, chest and ass pushed out)
- Excellent for both teasing and hard use
- Psychologically very powerful — she feels truly owned and immobilized
- Can be done on the bed, floor, or even suspended (advanced)
- Perfect for long-term display, spanking, teasing, oral use, and penetration from behind

In a **proper hogtie, she can barely move, roll, or shift.** Every small struggle only makes the position tighter and more intense. It's ideal for when you want her to feel completely powerless and available for your pleasure.

Safety note: The hogtie is a very restrictive position. Never leave her in a tight hogtie unattended. Monitor her breathing and circulation carefully. Avoid putting too much pressure on her chest or restricting her ability to breathe. Start with milder versions and gradually increase intensity. Always have a quick way to release her.

BONDAGE TASKS

ARM BINDER

Arm Binder

The arm binder is one of the **most strict and elegant forms of upper-body bondage.** It consists of a single, long sleeve (usually made of leather, PVC, or heavy fabric) that pulls both arms tightly together behind the back, from wrists all the way up to the elbows and sometimes shoulders.

Unlike separate wrist cuffs, the arm binder forces the arms into one **extremely restrictive position.** As the straps are tightened, the elbows are drawn closer together, **pushing the chest forward** and creating a dramatic, helpless posture that is both beautiful and intensely dominating.

Key features:

- Extremely strict and secure arm restraint
- Forces elbows together (or nearly together) for maximum restriction
- Creates a stunning posture — chest out, shoulders back, arms completely immobilized
- Excellent for long-term wear and psychological submission
- Looks incredibly sexy and “formal” in photos and real life
- Can be combined with other restraints for total helplessness

Once properly laced or buckled into an arm binder, **she loses all use of her arms and hands.** Simple actions like standing, walking, or even keeping balance become challenging and deeply submissive. The arm binder is perfect for high-protocol scenes, formal dominance, and situations where you want her to feel truly owned and powerless.

Safety note: The arm binder is quite intense. Start slowly and never force the elbows completely together if she is not very flexible. Monitor her shoulders, arms, and hands for signs of numbness or poor circulation. Do not leave her in a very tight arm binder for extended periods. Always have a quick way to release her.

ARM BINDER

BONDAGE TASKS

STRAITJACKET

Straitjacket

The straitjacket is the ultimate symbol of institutional and inescapable restraint. Designed to **completely immobilize the arms and upper body**, it wraps the wearer's arms tightly across their chest, with the sleeves crossing and buckling securely behind the back.
Once fastened, it renders the arms and hands entirely useless.

Unlike simple cuffs, a proper straitjacket creates **total upper-body immobilization.**
The tight fit, multiple straps, and crotch strap (in many models) make it extremely difficult to escape and give an incredibly strong feeling of helplessness and loss of control.

Key features:

- Complete immobilization of both arms and hands
- Classic, powerful aesthetic with strong psychological impact
- Multiple heavy-duty buckles and straps for maximum security
- Often includes a crotch strap to prevent removal or slipping
- Creates a very restrictive yet relatively comfortable position for longer sessions
- Extremely effective for both sensual and strict dominance

Wearing a straitjacket instantly puts her in a deeply submissive headspace. She cannot touch herself, cannot push you away, cannot even hug or hold you. Every movement becomes a struggle, **making her completely dependent on you** for everything — from basic comfort to sexual use.

Safety note: Make sure the straightjacket fits properly and is not overly tight around the chest or shoulders. Monitor her breathing and circulation, especially during longer sessions. Never leave her alone in a straitjacket. Keep safety scissors or quick-release tools nearby in case of emergency.

FULL IMMOBILIZATION

Mummification Wrap / Plastic Wrap Bondage / Bandages

Mummification is the most extreme and complete form of immobilization in this collection. It involves **wrapping the submissive's entire body** – from the tips of her toes all the way up to her shoulders or head – using either plastic wrap (saran wrap) or medical bandages, creating a tight, seamless "cocoon" that leaves her almost entirely unable to move.

This type of bondage **turns her into a living, breathing object** – completely helpless, with only select parts of her body (usually mouth, nose, breasts, and pussy) left exposed for your use and pleasure.

Key features:

- Near-total body immobilization — one of the most restrictive forms of bondage possible
- Creates an intense psychological feeling of being "trapped" and owned
- Beautiful glossy or smooth visual effect (especially with plastic wrap)
- Can be done with plastic wrap (quick, shiny, very tight) or bandages (more medical, matte, very secure)
- Perfect for long teasing sessions, sensory deprivation, and total objectification
- Highly customizable – you control exactly which parts remain exposed

Mummification takes bondage to another level. Once fully wrapped, she cannot shift, touch, resist, or even change her posture. Every breath and tiny movement becomes a reminder of her complete surrender. It's ideal for extended teasing, forced orgasms, use as a fuckdoll, or simply admiring her total helplessness.

Safety note: Mummification is advanced play. Never cover her nose or restrict breathing. Always keep safety scissors (with rounded tips) immediately accessible. Monitor her temperature (plastic wrap can cause overheating), breathing, and circulation. Start with shorter sessions and never leave a fully mummified person alone. Always establish a clear, non-verbal safeword signal (e.g., specific head movement).

IMMOBILIZATION

BONDAGE TASKS

- ☐ 201. Wrap her entire body tightly from her ankles all the way up to her shoulders — you can use either several layers of plastic wrap or medical bandages. Leave her mouth, nose, and pussy completely exposed. Lay her on her back on the bed and use her mouth slowly while she lies helplessly immobilized.

- ☐ 202. Mummify her completely with plastic wrap or bandages from feet to neck, keeping her pussy, mouth and nose free. Place her on her stomach with a pillow under her hips and fuck her deeply from behind while she can barely twitch.

- ☐ 203. Choose either plastic wrap or bandages and encase her whole body tightly, leaving only her mouth, nose and pussy exposed. Sit her upright against the headboard (or in a chair) and make her give you a long, devoted blowjob with her head completely immobilized.

- ☐ 204. Fully mummify her using your choice of plastic wrap or bandages. Leave her pussy exposed. Lay her on her back, spread her wrapped legs wide and tease her clit and pussy with a vibrator and your tongue for as long as you want.

- ☐ 205. Wrap her tightly from toes to shoulders with either plastic wrap or bandages. Keep her mouth, nose and pussy free. Stand her up against the wall and fuck her while she remains completely rigid and unable to move her torso or arms.

- ☐ 206. Mummify her entire body (plastic wrap or bandages). Leave her most sensitive areas exposed. Insert a remote-controlled vibrator deep inside her pussy, then sit back and watch her struggle and moan inside her tight cocoon while you control the toy.

BONDAGE TASKS

☐ 207. Fully encase her in plastic wrap or bandages from ankles to neck, leaving mouth, nose and pussy exposed. Tell her she now has a choice: for each round she can pick either tickling or blowjob.

- First round: 10 seconds
- Second round: 30 seconds
- Third round: 1 minute
- Final round: 3 minutes

She must choose and endure her choice each time.

☐ 208. Wrap her completely with multiple layers of plastic wrap or tight bandages. Keep her pussy accessible. Lie her on her back, lift her wrapped legs over your shoulders and fuck her in a deep, folded position while she's totally helpless.

☐ 209. Mummify her tightly using either plastic wrap or bandages. Blindfold her under the wrapping (or over her eyes) and add a ball gag. Spend a long time running feathers, ice cubes, and your tongue over her exposed pussy and nipples while she can't move at all.

☐ 210. Choose plastic wrap or bandages and wrap her from the tips of her toes all the way up to her head, leaving only her mouth, nose and pussy exposed. Place her in the center of the bed and use her freely — switching between her mouth and pussy — while she lies there like a living fuckdoll.

☐ 211. Fully mummify her body from toes to shoulders using either multiple layers of plastic wrap or tight medical bandages. Leave only her mouth, nose and pussy exposed. Add a blindfold under the wrapping and a ball gag in her mouth. Tease her exposed pussy with a vibrator on low speed for a minimum of 20 minutes.

BONDAGE TASKS

- ☐ 212. Choose plastic wrap or bandages and wrap her completely into a tight, seamless mummy. Keep her pussy and mouth accessible. Place her on her stomach with hips elevated and fuck her hard from behind for as long as you like, using her like a living sex toy.

- ☐ 213. Mummify her tightly with your choice of plastic wrap or bandages. Leave her mouth, nose and pussy free. Sit her upright (propped against pillows or headboard) and use her mouth for an extended, deep face-fucking session while her body remains completely rigid.

- ☐ 214. Encased her entire body in several thick layers of plastic wrap or bandages. Keep only her most sensitive parts exposed. Insert a remote-controlled vibrator inside her and leave her alone on the bed for 10-15 minutes while you watch and randomly change the intensity.

- ☐ 215. Fully mummify her from feet to neck (plastic wrap or bandages). Blindfold her and add noise-canceling headphones for total sensory deprivation. Spend a long time slowly teasing every exposed inch of her skin with ice, feathers, tongue and fingers.

- ☐ 216. Wrap her completely into a very tight mummy using either material. Leave pussy and mouth exposed. Lay her on her back, push her wrapped legs wide apart and alternate between fucking her pussy and making her suck you clean in long cycles.

- ☐ 217. Mummify her tightly with plastic wrap or bandages. Add ankle cuffs under the wrapping for extra security. Place her in the center of the bed and use her freely in any position you want, rotating her body as if she were an object.

- ☐ 218. Choose plastic wrap or bandages and create a full-body mummification, leaving only mouth, nose and pussy free. Edge her relentlessly with a vibrator and your cock. She is allowed to cum only after she begs clearly through her exposed mouth for at least five minutes.

- ☐ 219. Fully encase her in thick layers of plastic wrap or bandages from toes to the top of her head (leaving breathing holes and pussy exposed). Put her on her back and perform a long, slow, teasing session focused entirely on her exposed pussy and clit — no mercy, no quick release.

- ☐ 220. Create a complete, ultra-tight mummification using your choice of plastic wrap or bandages. Leave mouth, nose and pussy exposed. Combine with blindfold and ball gag. Use her as your personal fuckdoll for an extended period — switching between her mouth and pussy, taking breaks only when you want, while she remains totally helpless and immobilized.
