Role Reversal during Tasks!

TASKS FOR SWITCH COUPLE
SWITCHING ROLES

These next 50 tasks are designed to **shift the dynamic within a single scenario**, allowing power to move fluidly between partners – from dominant to submissive, and back again.

The core purpose is not just control, but the **moment of transition itself,** where tension, anticipation, and unpredictability are created.

Some tasks include a **clear role switch** during the experience, while others maintain **one role throughout** – but introduce a strong contrast that feels like a reversal. *For example, when she dominates while wearing a sweet, pink outfit, or when he gives commands while being tied to the bed.*
This contrast creates a unique psychological twist in the dynamic.

Most of these tasks do not focus on specific physical actions.
Instead, **they define when and how control is transferred**, giving you the freedom to combine them with any of the other 200 tasks in this collection, whether he or she is in control.

This makes them extremely versatile and powerful **as a tool to enhance existing scenarios**, intensify power play, and break predictable patterns.

Our **switch-based tasks are highly unique and stand out on Etsy** – and very likely across the entire market, as a fresh approach to couple dynamics and interactive play.

TASKS FOR SWITCH COUPLE
SWITCHING ROLES

☐ 1. Set a timer for 5 minutes. First, he takes control and can do whatever he wants with her. **After 5 minutes, the roles reverse**, and she takes control and gets her revenge on him. And so on - for 4 rounds.

☐ 2. Tell him to dress as dominantly as he can. Boots, a suit, elegant clothes, or something similar. **Make him think that he will dominate you tonight.** When your session begins, carry out his first command, then take him by surprise and tie his hands behind his back. Show her who's really in charge now.

- [ ] 3. Tell her to **pretend to be a princess today.** Have her wear gowns and dress elegantly. You will be her subject. Obey her during the day, but at night, tie her up and fuck her hard.

- [ ] 4. Order a **superhero outfit** for her online (e.g., DVA or Superwoman – preferably with an open crotch). When the outfit arrives, play her greatest enemy. The two of you can fight and wrestle, but your goal is to overpower your partner, tie up, and fuck.

- [ ] 5. Tell her to dress as dominantly as she can. High heels, latex, a skirt, or something similar. **Make her think that she will dominate you tonight.** When your femdom session begins, carry out her first command, then take her by force, tie her up, and show her who's really in charge.

- [ ] 6. Go on a date with her as if it were **your first Tinder date.** Talk as if you are getting to know each other for the first time, but also talk about her submissiveness. Invite her home and watch as she takes control and dominates you.

- [ ] 7. Play the role of a **naughty schoolgirl who gets called to the principal's office** for bad behavior and poor grades. Give her a few spanks with a ruler, and then she takes control, ties the principal to his chair, and pleases him with her hand or mouth while recording everything to blackmail him.

- [ ] 8. Play the roles of an **apartment owner and a maid** who cleans the apartment in a sexy outfit while he watches her and gives her instructions. While she's working, she seduces him and ties him to the bed with bed cuffs or to a chair. She then takes the opportunity to rob the house and steal his wallet. Finally, she sits on his face and ruins his orgasm with a handjob.

- [ ] 9. Play out a scenario where she ties his hands behind his back and takes control. However, **she didn't fasten one of the handcuffs**, so he breaks free and takes control of her.

- [ ] 10. She starts by seducing him, kissing his body, pulling down his pants, taking his penis into her mouth, and at the same time putting a blindfold over his eyes and handcuffing his hands behind his back. **At this point, she's in control;** she takes his place on the couch, orders him to kneel, and holds him by the hair, forcing him to suck her pussy.

- [ ] 11. He starts by giving her 3 simple commands that she must obey without question. Each command builds tension and control.
  After the third command, **she is allowed to "break" the dynamic** – but only by immediately issuing 3 commands of her own. He must obey them instantly, no hesitation, even if they challenge his previous authority.

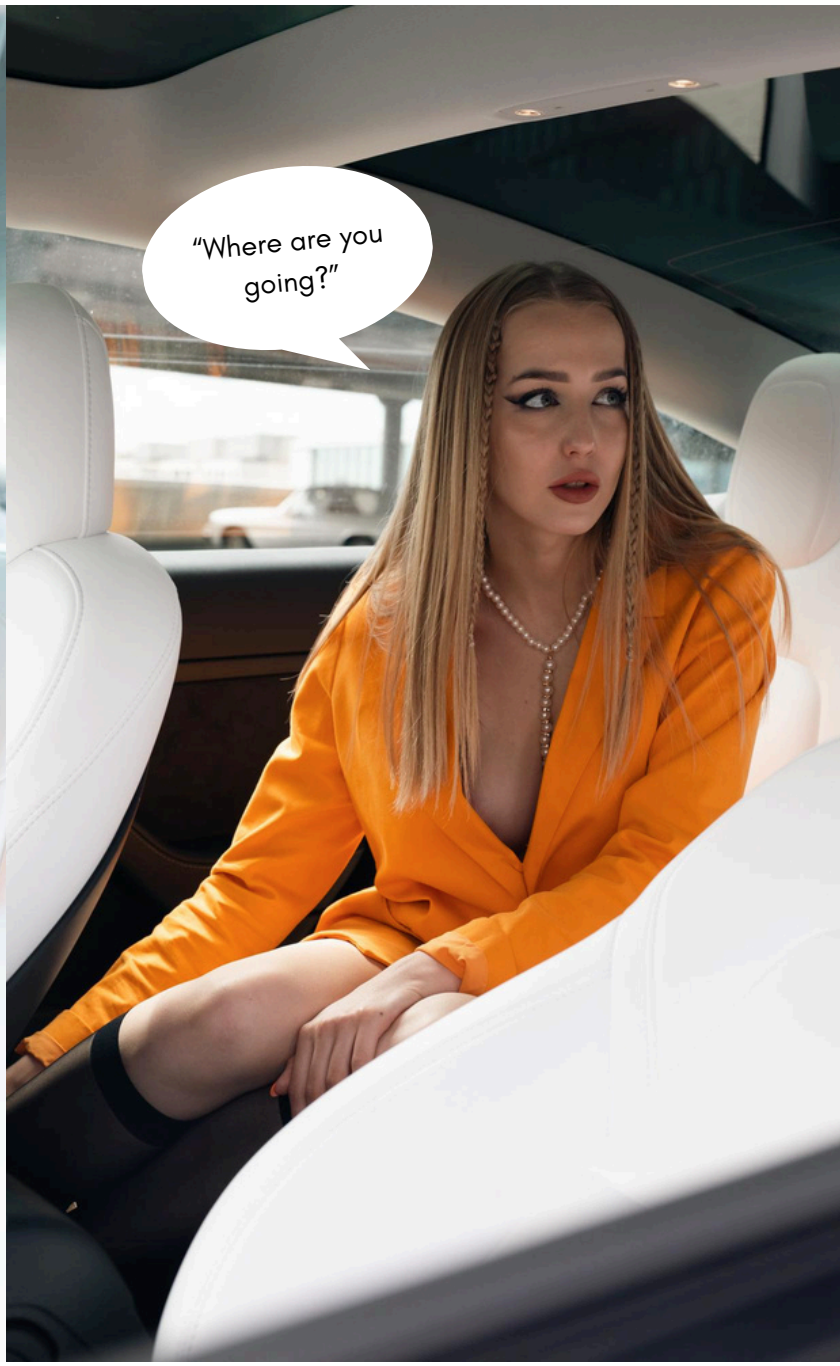

- [ ] 12. She begins in control, making him sit still while maintaining intense eye contact. She controls when he can move, speak, or look away.
  If she breaks eye contact even for a second, roles switch instantly.
  Now he takes control and sets stricter rules for her, increasing the intensity of the challenge.

- [ ] 13. Both of you play **the roles of the submissive partners.**
  Try blindfolding each other and tying your hands behind your backs – for example, using rubber cuffs. Lie naked on the bed, kiss, and have sex as if someone had ordered you to do it like that.

☐ 14. She's a **Businesswoman, and he's an Uber driver.** She questions his decisions about which way to go and says she won't pay and will give him a 1-star rating. He drives her out to the woods, drags her out of the car by her hair, and orders her to give him a blowjob - or he'll tie her to a tree and leave her alone in the woods.

☐ 15. **Flip a coin.** Tails - she takes control. Heads - he takes control. The winner takes control for 3 minutes or for 1 command. After that, you flip the coin again to decide who takes control.

☐ 16. Start with no clear dominant. **Both try to subtly take control** through commands, suggestions, leading actions, or even force. Whoever successfully makes the other follow 3 times in a row becomes the dominant. The other side has to follow 3 more commands.

☐ 17. She starts in charge, guiding everything while he follows. At any moment, he can say **"Freeze."** She must stop instantly, holding position. From that exact frozen moment, he takes control and continues the scenario in his own way. After 5 minutes, she earns one "Freeze" of her own to take power back anytime.

☐ 18. Time for r**eal role reversal** - he can do whatever he wants, but in the next scene, she'll do it to him. Want to fuck her? You'll get pegged. Tie her hands behind her back and make her give you a blowjob? She'll do the same thing to you, making you suck her pussy.

☐ 19. **He tells her how she's supposed to dominate him.** He's supposed to be in control, but his actions tell a different story... He has to follow her orders without hesitation.

☐ 20. He starts dominant and sets one strict rule she must follow (e.g., silence, posture, eye contact). After a short time, **she takes over and adds her own rule for him.** The dynamic continues switching every minute - each person adds a new rule for the other. By the end, both are following multiple rules created by the other, building layered control from both sides.

- ☐ 21. She is a **private nurse working in her patient's home.** He is demanding, rude, and constantly wants something throughout the day. At the end of the day, she gives him a sleeping pill. He wakes up handcuffed with bed cuffs, and then she takes control. It's not worth being rude to a nurse who specializes in sounding cocks...

☐ 22. He starts dominant but is limited to giving only 3 commands total. He must choose them carefully. **After he uses all 3, control automatically transfers to her.** Now she has 3 commands, and he must follow everything without negotiation.

☐ 23. He starts in control, but **he is only allowed to communicate through gestures - no words.** She must interpret and follow. After a set time, the roles switch: now she is the one who can only use gestures, and he gains full use of his voice to lead and control.

☐ 24. She begins as dominant and sets a challenge for him. **If he succeeds, he earns control and becomes dominant.** If he fails, she stays in control and gives him another task. Once he finally wins control, she must then earn it back in the same way.

☐ 25. He's in control, **but he can't say a single word.** He can give orders using gestures, and if she refuses to listen, he can use force. If at any point he uses even a single word or a moan, he must give up control, and from then on, the same rules apply to her.

☐ 26. Recreate any XXX clip **where the man is in control at first**, and then the woman takes over. She gets to choose the clip.

☐ 27. Recreate any XXX clip where the **woman is in control at first,** and then the man takes over. He gets to choose the clip.

☐ 28. She starts as dominant with a 4-minute control phase. Before time runs out, he can interrupt and say **"Extend."** If he does it, her control extends for another 4 minutes. If not, he takes control, and the same rules apply to her

☐ 29. She begins the scene as **a shy, well-behaved girl,** obediently following his 3 commands. After that, she transforms into a dominant, confident woman who takes control and orders him to follow her 3 commands.

- ☐ 30. He begins by **giving her a task choice** (A or B, this or that). She picks a task, does it, and then he has a choice. Five rounds like that.

- ☐ 31. He starts out as the **dominant partner, but he's blindfolded.** He can give her orders, but she doesn't have to obey. He can take her by force, but she can escape and tie him up to take control.

- ☐ 32. Each of you has a hair tie on your wrist. **Your opponent's goal is to remove it from your wrist;** if they succeed, they get 1 point. You play until one player reaches 3 points. The winner takes control of the loser and can humiliate them.

- ☐ 33. You start in a position where she has the advantage. For 2 minutes, **she can wrap him in tape, tying his hands, legs, and other parts of his body.** He gives her permission to do so. After 2 minutes, her task is to make him ejaculate in any way she chooses within 3 minutes, and his task is to free himself and prevent this from happening. If he loses, you tape him up again and guarantee him post-orgasm torture until his next ejaculation. If she loses, she must take his cum into her mouth for 3 minutes or swallow it.

- ☐ 34. He starts out as the dominant one, but **his hands are tied behind his back.** She can follow his orders, but she doesn't have to. At any moment, she can take control, because in reality, he has no power over her

- ☐ 35. Take on the **role of a waiter and a rude restaurant guest.** He slips a (fake) sleeping pill into her drink, and then she wakes up between his legs, with her hands tied behind her back. He forces her to give him a blowjob while he eats her dinner.

- [ ] 36. It's time for free play. For 30 minutes, one of you has complete control over your partner. After that, the other person gets 30 minutes to take control. Decide who will submit first and who will dominate.

TASKS FOR SWITCH COUPLE
SWITCHING ROLES

☐ 37. Her hands are tied behind her back and she's blindfolded, and **even though she looks submissive, she's the one in control in this scene.** He has to obey her every command and can't take control.

☐ 38. She is restrained with bed cuffs, wearing a blindfold and a ball gag in her mouth. **You begin a reverse negotiation**, in which he negotiates how he wants to be dominated. She must agree to his first request because she has a ball gag in her mouth. When she agrees, he removes it. To have the blindfold removed, he makes a second request, and she negotiates. To be freed from the bed cuffs, he makes a third request. Then she fulfills all his requests, and he submits.

☐ 39. She ties him up with bed cuffs and blindfolds him. **Despite this, he is in control, and she must obey** his three commands.

☐ 40. **Switch roles for a day.** The person who always cleans gets pampered this time. The person who usually pays for everything becomes the "money slave" this time and has to complete a task to get something bought for them. The same goes for the bedroom - the person who usually dominates submits this time.

☐ 41. You have 5 minutes to **write down offensive words about the other person**, such as "fucktoy," "slut," etc. The person who writes down fewer words loses, and the winner uses a marker to write the words they came up with on the loser's body. Additionally, the loser must perform 3 humiliating tasks for the winner.

☐ 42. **Record a clip where one of you is in control**, then there's a cut to a scene where your partner takes control, cut, and another scene where the other person is in control.

☐ 43. Play this scenario as if **she were hypnotized.** When he says “Switch,” she first transforms into a submissive girl who obeys his every command, but saying “Switch” again causes her to suddenly wake up in the dominant role, giving the orders herself. He can use this word as many times as he likes.

- [ ] 44. **She dresses all in pink**, in a sweet, innocent outfit, while he dresses elegantly. Despite the contrast in their outfits, she takes the lead during this session, giving him 3 tasks.

- [ ] 45. She takes control in this session, but **every 5 minutes she turns into a sex doll** for 2 minutes, with whom he can do whatever he wants. Then she returns to her role for another 5 minutes. And so on, taking turns.

- [ ] 46. You both have a collar and a leash. **Your task is to grab your opponent's leash first.** Once you do, they get down on all fours like a dog and can't speak, obeying every command - but only as long as you're holding the leash. After performing 3 commands, the submissive partner takes the leash and becomes the owner, and now they give 3 commands.

- [ ] 47. Have **sex in the doggy-style position**. However, he is blindfolded, has a ball gag in his mouth, and his hands are tied behind his back. She can give him commands like "faster," "harder," etc.

- [ ] 48. You'll act out a scene where he's tied to a chair and she gives him a blowjob, **with the facial expressions of a submissive girl.** However, when he's close to coming, her attitude changes and she gives him a choice - leave him unsatisfied, ruin his orgasm, or finish the blowjob by taking his cum in her mouth, but then snowballing it into his mouth, and he has to swallow it.

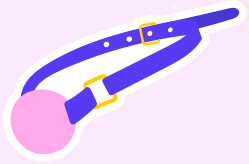

- [ ] 49. He goes to a **session with a professional Mistress**, who dominates him for an hour. But when it comes time to pay, he grabs her, ties her hands behind her back, and ends up dominating his Mistress. You can take it a step further: after a few minutes of his dominance, she takes psychological control, he lets her go, and he submits again - this time, she's ruthless with him.

☐ 50. **She begins the session as his submissive and follows his orders.** She suggests that she could take control too, but he laughs at her, saying she certainly can't do it because she's submissive by nature. However, he gives her handcuffs and tells her to show what she's capable of. Moments later, he's kneeling before her, kissing her feet, with his hands tied behind his back. How did she do that?
