SOLO SLUT TASKS

HOW IT WORKS?

These solo submissive tasks are designed to help you explore, train, and deepen **Your Submissive Mindset** – on your own terms, in your own space.

They guide you through obedience, focus, discipline, and self-awareness, allowing you to **practice Submission even when no partner is present.** Each task is written as a direct command, helping you build the habit of following instructions, staying present in your body, and embracing structure and control.

You don't need to complete the tasks in order, and you don't need to do all of them. You are **free to choose the ones that call to you**, repeat the ones that feel powerful, and move at your own pace.

These tasks are perfect if you want to:

- **improve** your **submissive skills** within your current relationship,
- **prepare** yourself for a future **Master or D/s dynamic**,
- or simply indulge in the pleasure and excitement of **being submissive for your own satisfaction.**

You may also choose to r**ecord certain tasks** – photos, notes, or videos – so you can return to them later and observe how your obedience, confidence, and submission evolve over time.

No partner is required. No performance for anyone else.
Just you, your submission, and the pleasure of choosing it for yourself.

SOLO SLUT TASKS

Basics

☐ 1. Stand in front of a mirror. Feet together. Shoulders back. Chin slightly down. Hold eye contact with your own reflection for two full minutes without looking away. Let your body learn what obedience looks like.

☐ 2. Go to your bedroom. Remove one item of clothing slowly. Fold it neatly. Place it on a chair. Do not rush. Every movement must be intentional.

☐ 3. Kneel on the floor beside your bed. Set a timer for five minutes. Hands on thighs. Back straight. Breathe slowly and stay perfectly still until the timer ends.

☐ 4. Write the sentence “I follow instructions even when no one is watching” ten times by hand. Each line must be clean and readable. If you rush, start over.

☐ 5. Take a shower. Wash yourself slowly, deliberately, as if every movement is being observed. No music. No distractions. Focus only on touch and breath.

☐ 6. Choose an outfit you normally consider “too bold” or “too revealing.” Put it on, even if you’re staying home. Wear it for at least one hour. Sit on the edge of your bed. Place your phone face down across the room. Stay seated for three minutes, doing nothing except breathing and waiting.

☐ 7. Light a candle. Sit in front of it. Watch the flame and count ten slow breaths. With every exhale, relax your shoulders and jaw further.

- ☐ 8. Light a candle. Sit in front of it. Watch the flame and count ten slow breaths. With every exhale, relax your shoulders and jaw further.

- ☐ 9. Walk slowly through your space and straighten three things you normally ignore. Do it quietly. Do it properly. Order is part of submission.

- ☐ 10. Write down three rules you struggle to follow in daily life. Circle one. Commit to following it perfectly for the rest of the day.

- ☐ 11. Stand barefoot on the floor. Close your eyes. Shift your weight slowly from heel to toe. Stay grounded. Stay present.

- ☐ 12. Choose a simple task (making tea, cleaning a surface, preparing food). Perform it slowly, without multitasking, without checking your phone.

- ☐ 13. Sit or kneel comfortably. Place one hand over your heart. One over your stomach. Breathe deeply for five minutes, staying calm and focused.

- ☐ 14. Put on something tight or form-fitting. Move in front of the mirror and adjust your posture until you look confident and controlled. Hold it.

- ☐ 15. Write a short paragraph starting with “When I submit, I feel…” Be honest. Do not censor yourself.

- ☐ 16. Set a timer for ten minutes. During that time, you are not allowed to speak, check messages, or consume media. Just exist quietly.

- ☐ 17. Brush your hair slowly, stroke by stroke, until it looks intentional and neat. Do not rush this.
- ☐ 18. Choose one personal habit you know isn't good for you. Avoid it for the next 24 hours without excuses.
- ☐ 19. Sit on the floor with your back against the bed or couch. Knees bent. Hands resting loosely. Stay there for five minutes and breathe evenly.
- ☐ 20. Write down one boundary you want to respect more strongly in your life. Read it out loud once. Then put the paper away.
- ☐ 21. Clean your hands thoroughly. Dry them carefully. Treat your body with precision and care.
- ☐ 22. Choose one piece of jewelry or accessory. Put it on slowly and wear it as a reminder of focus and self-control for the rest of the day.
- ☐ 23. Stand in silence for two minutes before going to sleep. No phone. No music. Just stillness.
- ☐ 24. In your journal, write one sentence starting with "I don't need permission to take myself seriously." Read it twice.

***Remember**: Sucking is one of the most powerful and often underestimated ways to express submission - whether you're sucking your own fingers, your partner's fingers, or his cock.*
That's why learning proper sucking technique matters. Do it slowly. With intention. With awareness. Control, sensitivity, and focus turn a simple act into a clear expression of obedience and skill.

Spitting

- ☐ 61. Practice creating saliva in your mouth and letting it collect before starting any touch. Awareness comes first.
- ☐ 62. Perform a handjob on a dildo while deliberately letting saliva fall onto your hand before touching.
- ☐ 63. Perform a handjob, this time reapplying saliva every time your grip changes.
- ☐ 64. Practice a slow blowjob on a dildo, focusing on keeping visible saliva present throughout.
- ☐ 65. Pause mid-blowjob and add more saliva intentionally before continuing.
- ☐ 66. Perform a handjob using saliva as your primary source of lubrication, moving slowly and evenly.
- ☐ 67. Practice a blowjob while allowing saliva to drip naturally, without wiping or hiding it.
- ☐ 68. Finger yourself briefly, then bring your fingers to your mouth and coat them with saliva before continuing.

***Remember**: Saliva is one of the most visually powerful and arousing signals of submission for a partner. It shows eagerness, effort, and a willingness to give more of yourself. That's why spitting is not something to hide – it's something to let be seen. Used intentionally, saliva adds intensity, messiness, and control to intimate acts. And when a partner chooses to spit on you or into your mouth, it can be a clear expression of dominance – something earned through obedience, openness, and trust.*

- ☐ 70. Practice a blowjob while maintaining relaxed breathing so saliva builds naturally.
- ☐ 71. Finger yourself slowly, then spit on your fingers and return them to your body without wiping them.
- ☐ 72. Perform a handjob while watching yourself in a mirror, noticing how saliva changes the visual.
- ☐ 73. Practice a blowjob using shallow movements, letting saliva accumulate rather than swallowing.
- ☐ 74. Sit still and practice producing saliva on command, then apply it to your fingers.
- ☐ 75. Perform a handjob using only one hand, reapplying saliva frequently to maintain smooth control.
- ☐ 76. Practice finger sucking while keeping your lips soft and saliva visible. Perform a blowjob and pause only to add saliva — no other interruptions.

- ☐ 78. Practice a handjob where you focus more on wetness and glide than on movement.

Sloppy

- ☐ 79. Produce saliva in your mouth and spread it slowly between your fingers. Look at your hand before doing anything else.
- ☐ 80. Perform a handjob on a dildo and deliberately let saliva coat your hand fully before starting.
- ☐ 81. After a handjob, touch your cheek with the same saliva-covered hand and leave it there for a a minute.
- ☐ 82. Practice a blowjob on a dildo without wiping saliva away at any point.
- ☐ 83. Let saliva drip onto the dildo first, then touch it with your hand afterward.
- ☐ 84. Perform a handjob and, halfway through, press your saliva-covered palm gently against your face.
- ☐ 85. Practice a blowjob and allow saliva to remain visible on your lips and chin afterward.
- ☐ 86. Touch the dildo with your hand only after it has been coated with saliva.
- ☐ 87. Suck your fingers deeply, then place your wet fingers against your lips or cheek.

***Remember**: Being sloppy is not about carelessness — it's about freedom from shame. It's the moment you stop trying to stay clean, pretty, or controlled, and instead allow yourself to be openly messy and used. Saliva becomes visible proof of effort, desire, and surrender. Touching your own face with a saliva-covered hand, or feeling it on your skin, trains you to let go of self-consciousness and embrace vulnerability. Sloppy submission is about presence, not perfection.*

- ☐ 149. Wear long gloves and nothing else. Use your gloved hand to push the dildo to the back of your throat — feel the fabric against your lips.

- ☐ 150. Roll on sheer nude stockings. Sit on the floor with your legs spread and slide the dildo along the stocking seam between your thighs.

Sensory Deprivation

- [ ] 169. Put on a blindfold and noise-blocking headphones. Sit naked on the floor, spread your knees wide, and slowly sink onto a dildo as deep as your body will take it. Ride it for 10 minutes straight — no vision, no sound, nothing but the stretch and the pressure inside you.

- [ ] 170. Strap an open-mouth gag tightly so your mouth is locked open. Put on a blindfold, kneel, and give the dildo a sloppy, desperate blowjob for 5 minutes. No hands. No talking. Just wet, messy suction around that silicone cock.

- [ ] 171. Put on headphones with loud bass. Sit on a chair, legs open, slide the dildo halfway in. Each time the bass hits, push it one inch deeper until you're fully filled. Hold it there and take slow, controlled breaths.

- [ ] 172. Lie on your back with a blindfold and gag. Run the dildo all over your body — thighs, stomach, breasts, neck — teasing yourself. You are not allowed to put it inside you for 7 full minutes, no matter how much your cunt throbs.

- [ ] 173. Kneel naked, blindfolded. Trap the dildo between your thighs and squeeze hard. Rub your thighs together like a needy slut until the dildo presses and slides against your pussy. If you touch it with your hands even once, you must restart.

- [ ] 174. Put on headphones with a countdown audio (10 to 1). With each number, push the dildo exactly one inch deeper. When the countdown ends, freeze — you must hold the dildo inside you for one full minute without moving.

Sensory Deprivation

☐ 175. Stand naked facing a wall. Blindfold on. Press the dildo to your pussy from behind and slowly lower yourself onto it, using one hand on the wall for balance. Move painfully slow — like you're punishing your own body with every inch.

☐ 176. Blindfold and gag on. Lie on your stomach. Slide the dildo between your legs from below and thrust your hips downward onto it. Find a rhythm that makes you grind like a silent, desperate toy for your own pleasure.

☐ 177. Sit cross-legged, blindfolded. Hold the dildo upright and rub your clit on the tip — slow circles, light pressure. You are not allowed to push it in until your legs start shaking.

☐ 178. Put in a pair of soft earplugs and add headphones on top. Blindfold on. Bend over the edge of the bed and fuck yourself with the dildo using only one hand. The other hand must stay flat on the mattress the whole time.

☐ 179. Kneel with your back straight, open-mouth gag in place. Blindfold yourself, open your mouth, and thrust the dildo in and out that is placed to the wall. Keep a steady pace until your jaw aches.

☐ 180. Blindfold and headphones on. Insert the dildo halfway into your pussy. Keep it still. Now clench and unclench your muscles around it for 200 slow pulses. No thrusting allowed.

☐ 181. Put on the gag, sit on the edge of a chair, and blindfold yourself. Slide the dildo into your ass just past the tip. Hold it there for 30 seconds, then push it one inch deeper every time you exhale — until you're at your limit.

- [ ] 182. Blindfold yourself and lie on your back with your knees up. Use the dildo to slap your pussy 20 times — firm, rhythmic. After the 20th slap, push it into your pussy in one slow, uninterrupted motion.

- [ ] 183. Headphones on. Blindfold on. Sit on your knees and fuck your throat on the dildo with both hands pulling it in. Keep going until saliva drips down your chest.

- [ ] 184. Blindfold and gag yourself, then crawl to where your dildo is placed. You must find it using only your face. The moment you touch it, you must immediately sit on it — no hesitation, no teasing.

- [ ] 185. Stand with your legs apart, blindfolded. Slide the dildo inside your pussy and push it in as far as you can. Now walk slowly across the room without letting it fall out.

- [ ] 186. Gag on. Blindfold on. Lie on your side and fuck yourself with the dildo using very shallow thrusts — barely an inch in and out. You must stay on that shallow edging pace for 5 minutes without speeding up.

- [ ] 187. Put the dildo on the floor upright. Blindfold yourself. Lower yourself onto it until your pussy touches the tip, then slowly impale yourself on it hands-free. Ride it with your hands behind your back.

- [ ] 188. Headphones on. Blindfold on. Use the dildo to rub your clit only using the handle. You're not allowed to penetrate yourself until you edge three times.

- [ ] 189. Blindfold on. Insert the dildo and sit still for 3 minutes. Every time you feel your pussy clench around it, push it half an inch deeper. Keep going until you're completely full.

- [ ] 190. Openn-mouth Gag, kneel, and blindfold your eyes. Push the dildo down your throat until your eyes water. Hold it there for a 3-second count before pulling back. Repeat 15 times.

- [ ] 191. Wear noise-canceling headphones and kneel over a pillow. Thrust the dildo into your pussy while rocking your hips forward and backward. You must fuck yourself to the rhythm of your breathing — nothing faster, nothing slower.

- [ ] 192. Blindfold on. Lie on your back and slide the dildo deep inside yourself, then hold it there without moving. Now use only your hips to grind up and down the length. No hands allowed.

- [ ] 193. Gag yourself and put on a blindfold. Sit on the floor and stroke the dildo like you're giving it a handjob — slow, teasing, deliberate. Once your mind feels drenched in need, push it inside your pussy without warming up.

- [ ] 194. Blindfold on. Slide the dildo into your pussy all the way and keep it deep. Now switch to rubbing your clit with two fingers while holding perfectly still internally. You're not allowed to thrust even once.

- [ ] 195. Put on headphones with loud music, blindfold yourself, and bend over. Push the dildo into your pussy and fuck yourself as fast and as hard as you can until your legs start to give out.

☐ 199. Put on your most humiliating outfit — something that makes you feel exposed and weak — then strip completely naked except for the collar. Attach a leash to it, set your phone to record, and crawl in circles while teasing your clit with just your fingertips. You're not allowed to insert anything.

☐ 200. Tie your wrists together behind your back. Stay naked. Turn on your camera. Sit on your knees and spit on your own tits, letting it drip down your stomach. Rub your thighs together like a desperate slut trying to get off without using her hands.

☐ 201. Put on a humiliating piece of clothing (tiny skirt, slut top, or whatever destroys your dignity). Bend over the bed naked underneath. Spank your own ass 30 times — hard enough to leave marks — while whispering how badly you need to be ruined.

☐ 202. Leash on. Completely naked. Tape your phone to the wall like someone is filming you. Stand with your legs apart and slap your pussy with your fingers 20 times. After the 20th slap, edge yourself as slowly as possible until you're shaking.

☐ 203. Bind your ankles together with anything you have — rope, belt, scarf. Sit on your knees, legs trapped. Spit directly onto your pussy and spread it with two fingers. Don't push them inside. Just tease yourself until you're panting.

☐ 204. Wear nothing but one humiliating accessory — a too-small bra, a collar, a pair of degrading panties. Set up a camera and record yourself grinding against a pillow like you're being fucked rough from behind. Right before you'd cum, you must stop.

Pro tip:

Cum-focused tasks — even with fake cum — rewire your pleasure, confidence, and submission on a deep level. The mess, the taste, the texture, the ritual of swallowing or covering yourself builds shamelessness, ownership over your desire, and a powerful sense of erotic freedom. The more you practice, the more natural and addictive this kind of surrender becomes.
