#1

Master says:

Get on your knees and crawl to him.
For 60 seconds, worship his dick with your lips – slow, desperate, like you're earning your release from the dungeon.

#2

Master says:

Stand still with your hands behind your back.
For 90 seconds, let him explore you – you're not allowed to move, speak, or close your eyes.
Obey and endure.

#3

Master says:

For 45 seconds, whisper the filthiest things you want him to do to you, one after another, without stopping. If you hesitate, start again.

#4

Master says:

Sit on the floor, spread your legs, and let him stare at you for 30 seconds without touching.
You'll feel the heat, the control, the silence.
Don't hide from it.

#5

Master says:

Crawl around him in a circle for 60 seconds, your head lowered, back arched. Every 10 seconds, look up and say, "Please, Sir, let me escape..."

#6

Master says:

Blindfold yourself and let him touch you for 2 minutes. Your task is to guess every part he touches – a wrong answer means a slap.

#7

Master says:

Kneel beside him and press your lips to his dick.
Stay perfectly still for 60 seconds, breathing slowly.

#8

Master says:

Poor thing... you look nervous already. Get on your knees and take his cock in your mouth for 30 seconds. No hands. Just lips, tongue, and obedience.

#9

Master says:

That trembling? Adorable. For 45 seconds, stroke him with both hands while whispering how badly you want to serve. Don't stop until he believes you.

#10

Master says:

Aww... did you think this would be easy? Lick every inch of him for 60 seconds, but you're not allowed to take him fully in your mouth.
Patience, little one.

#11

Master says:

You look so helpless like that. For 20 seconds, keep your tongue out while he taps it with his cock. Every touch, you whisper: "Thank you, Sir."

#12

Master says:

Poor thing... you wanted freedom? For 90 seconds, let him use your mouth however he wants. You just breathe, take it, and prove you can.

#13

Master says:

Climb onto his lap and grind on him through his clothes for 60 seconds. No taking anything off — you don't deserve that yet. Let him feel how desperate you're getting while he stays perfectly still. Pathetic how fast you melt, isn't it?

#14

Master says:

Get on your knees between his legs, hands behind your back. Open your mouth and wait. He decides when you earn his cock, not you. Look up at him while you wait — the desperation on your face is half the fun.

#15

Master says:

Lay on your back and spread your legs exactly the way he tells you. Don't move unless he positions you. He will touch you only when he feels like it… and you will thank him for every second. Good girls don't ask. Good girls obey.

#16

Master says:

Crawl to him slowly, head down, until you reach his feet. Kiss his ankle, then his knee, then his thigh. Stop an inch from his cock and wait for permission to go further. Pathetic how eager you are already… isn't it?

#17

Master says:

Sit on your knees and place your hands on your thighs. He will grab your hair and use your mouth exactly the way he wants. Your only task: keep your throat open and your eyes obedient. You're trembling? Of course you are.

#18

Master says:

Bend over in front of him and hold the edge of the bed. Stay perfectly still while he explores you with his fingers — slow, teasing, deliberate. If your hips move even once, he stops. Control yourself, little one… he enjoys watching you struggle.

#19

Master says:

Kneel in front of him, wrists tied behind your back. Open your mouth wide and let your saliva fall onto his cock — slow, messy, shameless. You don't get to lick or stroke. You just drool like the obedient little thing you are. For 2 minutes, he watches the spit drip from your lips onto him… Look at you — already degrading yourself without being touched.

#20

Master says:

His cock hovers just above your mouth — close enough to taste, but not enough to suck. Let your drool drip onto the floor between your knees. For 4 minutes, you stay in that humiliating position, leaking for him like a well-trained toy. You thought he'd let you earn a taste? That innocence is almost sweet.

#21

Master says:

Lie on your back, wrists tied, heels still on. He slides two fingers inside you and curls them deep. Your mouth stays open the entire time — drooling uncontrollably while he works your body with slow, cruel precision. For 5 minutes, your spit runs down your cheek and onto your face. You're so easy to unravel… it's almost pathetic.

#22

Master says:

Look at him. You're shaking, aren't you? For 60 seconds, kiss his thighs slowly, whispering between each kiss how you'll make him proud.

#23

Master says:

You're doing so well… almost. Now crawl around him for 1 minute, head down, voice low. Every 15 seconds, ask softly, "May I please continue, Sir?"

#24

Master says:

Poor girl… you must be desperate by now. For 30 seconds, let him tease you with his tip on your lips — no sucking, just waiting, open-mouthed and trembling.

Master says:

You think you can handle more? For 2 minutes, let him touch and guide your head. Every time he moves you, moan softly as if it hurts — even when it doesn't.

#26

Master says:

Poor thing… you wanted to escape, but now you're on your knees again. For 1 minute, keep eye contact as you serve him with your tongue. If you look away, he gets another round.

#27

Master says:

Kneel between his legs and take his cock in your mouth for 3 minutes. Deep, deeper… until your throat tightens. Don't stop — you need to earn your way out of here. Look at him while you struggle. Poor thing… did you think freedom comes cheaply?

#28

Master says:

Lower yourself slowly and use your mouth to worship him without your hands for 2 minutes. Keep going even when your breathing gets uneven. The dungeon doesn't care about your comfort. If he tells you to slow down, ignore him — you're here to suffer a little.

#29

Master says:

Lie on your belly between his legs and let him guide your head however he wants for 3 minutes. No resistance, no hesitation. When you gag, swallow it and keep going. You look like you're about to cry… adorable.

#30

Master says:

Open your mouth wide and stay perfectly still for 2 minutes. He can thrust as deep as he wants — you don't get to decide pace or depth. If you need air, take it through your nose like a desperate little captive. Your trembling? Acceptable entertainment.

#31

Master says:

Kneel between his legs and stroke him slowly with both hands for 3 minutes. Keep your head lowered while you whisper, 'Please… don't hurt me… I'm trying… I just want to get out of here…' Poor little captive — so obedient when you're scared.

#32

Master says:

Climb onto him, slide yourself just over the tip of his cock, and grind there without taking him inside for 2 minutes. While you torture both of you with that teasing, say quietly, 'Please… let me escape after this… I'll behave…' Look how desperate you already are.

#33

Master says:

Press your mouth to his cock and go as deep as you can for 90 seconds, pulling back only enough to breathe. Each time your throat tightens, say a shaky, 'Please… I'm trying… don't make it harder…' Your tears are almost convincing.

#34

Master says:

Get on your stomach and lick him from base to tip for 2 minutes, slow and pathetic. No sucking — just licking like a captive trying to earn mercy. Every 20 seconds whisper, 'Please don't be rough… I just want to escape…' The dungeon enjoys your begging.

#35

Master says:

Use only your hand to stroke him slowly for 4 minutes. No speeding up, no cheating. With every stroke, you whisper something desperate: 'Please… I'll do anything… just help me get out…' As if your pleading ever mattered.

#36

Master says:

Lower yourself onto him fully and ride him at a slow, controlled pace for exactly 2 minutes. No faster. No climaxing. Each time he grabs your waist, you whimper, 'Please… don't make me go harder… I just want to escape…' Pathetic and perfect.

Master says:

Lay on your back and pull your knees up while you suck his cock for 3 minutes straight. Whenever you gag, your line is, 'Please… I need air… we need to get out of here…' The dungeon isn't listening, but say it anyway.

#38

Master says:

Straddle his thigh and grind on it for 4 minutes while stroking him with one hand. Your rule: whenever you feel yourself getting close, you look him in the eyes and whisper, 'Please don't make me cum… I'm scared…' You look so sweet when you struggle.

#39

Master says:

Hold his cock against your lips without taking it in, just breathing over it while you keep your hands behind your back. Do this for 2 minutes. Every 30 seconds you murmur, 'Please… I'll be good… I'll do anything… just let me escape…' Such fragile hope.

#40

Master says:

Kneel in front of him, look straight into his eyes, and give him the sloppiest blowjob you can for 3 minutes. Let drool drip down your chin. Every time you choke, keep eye contact and whisper, 'Please… don't make me go deeper… I just want to escape…' Look at you — trembling already.

#41

Master says:

Sit back on your heels, suck him slowly, and use your free hand to finger yourself for 2 minutes. When your fingers slip inside you, mumble, 'Please… don't make me do both… I just want to leave…' The dungeon likes multitasking more than you do.

#42

Master says:

Take him all the way into your throat and hold it there as long as you can before pulling back for air. Repeat for 4 minutes. Each time you gasp, say, 'Please… I'm trying… don't make me stay here…' Your desperation is almost believable.

#43

Master says:

Sit between his legs and take his fingers into your mouth, sucking them slowly and obscenely for 1 minute. Every time he slides his fingers deeper, whisper, 'Please… don't push… I'm scared…' The dungeon isn't.

#44

Master says:

Lower yourself onto him and ride him slow, controlled, exactly as he wants, while keeping constant eye contact for 3 minutes. If your gaze breaks, you start over. Quietly beg, 'Please… don't look at me like that… I just want to escape…' Too bad no one cares.

#45

Master says:

Lay on your belly and lick him lazily from base to tip for 2 minutes. No sucking. No pace. Just pathetic licking. Every 20 seconds whimper, 'Please… let this be enough… I want out…' Spoiler: it won't be.

#46

Master says:

Open your mouth and take his fingers in again — deeper this time — while stroking him with your other hand for 3 minutes. Each time he curls a finger against your tongue, whisper, 'Please… I'll do anything… just help me escape…' As if obedience ever saved anyone here.

#47

Master says:

Go down on him and deepthroat him for 90 seconds at a time, pulling back only to stare up at him before taking him again. Between breaths, say, 'Please… don't be rough… I'm trying to earn my way out…' The tears in your eyes make it better.

#48

Master says:

Use both hands to stroke him fast and messy for 2 minutes while staying on your knees and keeping eye contact.

Put your hands behind your back and stay tied while you take his cock into your mouth for 3 minutes. You don't get to set the pace — he does. Every time you lose balance, whimper, 'Please… I can't hold myself… I just want to get out…' Pathetic and perfect.

#50

Master says:

Kneel, open your mouth wide, and let him use your throat for 2 minutes. No hands. No pulling away. When his hips push forward too fast, choke on him and gasp, 'Please… not so rough… I'm trying to escape…' as if begging ever mattered here.

#51

Master says:

Take him deep and stay there until your eyes water, then pull back just enough for air. Repeat for 2 minutes. Each time you tear up, whisper shakily, 'Please… I can't… let me go…' The dungeon enjoys your struggling more than the task itself

#52

Master says:

Put on the open-mouth gag and kneel in front of him. You'll suck him as best you can for 3 minutes despite the drool and the lack of control. With every wet, messy sound, mumble through the gag, 'Pl…ease… I wan… out…' Even your words sound defeated.

#53

Master says:

Press your tongue out and drool over his cock for 1 minute before sucking him. Let it drip down your chin and chest. Every time you make a mess, say softly, 'Please… I don't want to stay here… I'm trying…' The dungeon is judging you — correctly.

#54

Master says:

Hold the base of his cock and guide yourself down until you gag. Stay there for 3 seconds each time. Continue for 2 minutes. When your throat spasms, breathe out, 'Please… I can't take more…' and do it again anyway.

#55

Master says:

Lay on your back with your wrists tied above your head. Open your mouth and let him fuck your throat for 3 minutes while you stay completely still. Between thrusts, whisper, 'Please… don't hurt me… I just want to escape…' Your helplessness is the point.

#56

Master says:

Put the open-mouth gag back in, look him in the eyes, and take him into your mouth for 2 minutes. Every time you gag, keep eye contact. And through the gagged breathing say, 'Pl…ease… sto…p… I wan… out…' The dungeon loves your muffled begging.

#57

Master says:

Get on your knees, open your mouth wide, and let him rest his cock on your tongue for 1 minute while you drool uncontrollably. After that, suck him sloppy for 2 more minutes. Each time you feel humiliated, whisper, 'Please… let me go… please…' so small, so broken.

#58

Master says:

Take him deep for 30 seconds, then sloppy for 30 seconds, repeat for 4 minutes. Whenever you struggle to keep the rhythm, beg quietly, 'Please… I can't keep up… I just want to escape…' But the dungeon loves when you fail and try again.

#59

Master says:

Tie your wrists behind your back and get on all fours. Let him take you from behind for exactly 3 minutes. You'll moan for him, loudly, and each time his hips slam into you, gasp, 'Please… don't stop… if we do this right, we can escape… please… cooperate with me…'
You sound almost hopeful.

#60

Master says:

Straddle him while your hands are tied behind your back and ride him slowly for 2 minutes. You can moan, but every 20 seconds whisper, 'Come on… help me… let's get out of this dungeon together…' even though you know he's not the one in control.

#62

Master says:

With your wrists bound, crawl between his thighs and give him a slow, deep blowjob for 3 minutes. Each time you choke, look up and murmur, 'Please… trust me… I'm doing this so we both get out…' What a sweet little captive you are, trying so hard

#63

Master says:

Bend forward in doggy style and hold the position while he slides into you. For 2 minutes, you keep your voice soft, begging between breaths, 'Please… stay with me… don't lose control… we can escape if we do this right…' It's almost touching.

#64

Master says:

Lay on your back and let him thrust into you for 3 minutes. Your task is simple: moan as loudly as you can. And every time your voice cracks, gasp, 'Please… cooperate with me… don't leave me here alone…' Such a needy little survivor.

#65

Master says:

Ride him for 2 minutes with your hands tied in front of you. Keep a fast pace. Every few thrusts, lean forward and whisper, 'Please… help me… we'll escape if we work together…' even though the dungeon isn't offering teamwork.

#66

Master says:

Get into doggy style with your wrists tied to your ankles. Let him fuck you exactly how he wants for 3 minutes. You can barely move — good. Each thrust should pull a moan from you, followed by, 'Please… don't let go of me… I need you if we're going to get out…' So fragile.

#67

Master says:

Lay on top of him, wrists tied, letting him fuck you deeply for 4 minutes. Every time you feel yourself losing control, breathe out, 'Please… don't stop… stay with me… we'll escape… I swear…' Your desperation makes the whole task sweeter.

#68

Master says:

Get on all fours, push your hips back for him, and take him loudly for 3 minutes. Moan without holding anything back. After every moan, say softly, 'Please… I want us both out… don't leave me behind…' You sound like you mean it. Pathetic, but sincere.

#69

Master says:

Put the open-mouth gag on and take his cock as deep as you can. For 2 minutes, focus only on depth — not speed, not pleasure. Let drool flow freely. The gag is just there to remind you that control was never yours.

#70

Master says:

Sit on top of his hips and grind in tight, slow circles for 4 minutes. Keep the rhythm steady, no matter how frustrating it becomes. If he tries to thrust, hold him down with your thighs and stay slow.

#71

Master says:

Get behind him and lick his hole (or dick) for 1 minute, then stroke him for another 2 minutes without stopping. Switch back and forth until your time is up. No rushing — the dungeon enjoys precision.

#72

Master says:

Ride him for 3 minutes while giving his thighs sharp, controlled smacks every 10–15 seconds. Not too gentle. Not too hard. Just enough to leave a reminder that you're both still trapped here.

Spend 2 minutes licking every inch of his cock — the base, the tip, under the head — without taking him into your mouth. Just your tongue working slowly, deliberately, teasingly.

#74

Master says:

Get on all fours with a ball gag in your mouth and let him use your pussy while you stay in doggy position for 3 minutes. He controls the pace. You just stay open and take it.

#75

Master says:

Put the open-mouth gag on, take his fingers into your mouth, and suck them deeply for 2 minutes. Use your tongue, make it obscenely wet. Then slide down to his cock and give one long, wet lick from base to tip. “She learns quickly… too bad it won’t save her.”

#76

Master says:

Keep your wrists tied behind your back and take him into your mouth. Use only your lips and throat for 4 minutes — no hands at all. Keep a steady pace even when your balance shakes.

#77

Master says:

Get on all fours facing him. Lean down and rub your pussy slowly along his thigh for 2 minutes while stroking him with one hand. No penetration — just teasing him with your warmth.
“Such a pretty little distraction tool…”

#78

Master says:

Lay him down and crawl between his legs. Slide your tongue along his cock in slow, tight circles for 2 minutes. No sucking — just grinding the tip of your tongue against the most sensitive spots.

#79

Master says:

Get on all fours, open your mouth, and let saliva fall directly onto his cock for 1 minute. After he’s dripping wet, take him into your mouth and give the slowest, neediest blowjob you can manage for another minute. “A puddle of obedience. Good.”

#80

Master says:

Straddle his clothed lap completely naked and grind your pussy slowly against the fabric covering his cock for 3 full minutes. Keep the contact constant, sliding yourself along his jeans while he stays perfectly still. “Even fully clothed, he has more dignity than you right now.”

#81

Master says:

Kneel between his legs while he stays fully dressed. Give him a slow blowjob for 2 minutes, then press your bare chest to his clothed thighs and stroke him with both hands for another 2 minutes. ”The contrast suits your status perfectly.”

#82

Master says:

Get into naked doggy style and back your ass up against his clothed crotch. Rub yourself against the fabric slowly, letting your warmth soak through. No penetration — only teasing friction. “You look more desperate than useful… but keep going.”

#83

Master says:

Spread his cheeks and lick his hole steadily for 2 minutes. No pauses. Use long, slow strokes of your tongue, keeping your hands on his hips to hold yourself steady. “Good. Humility tastes better than courage.”

#84

Master says:

Position yourself above his cock and press your asshole against the tip. Grind slowly in small circles without letting it enter you. Your hands stay behind your back the entire time.
Dungeon Master laughs: “Look at her… offering what she’s too afraid to take.”

#86

Master says:

Kneel between his legs and wrap your hand around his cock. Slow strokes only.
He'll place his hand over yours when he wants more, and you will follow his rhythm without hesitation. You feel how hard he gets from owning you like this? Of course you do.

#87

Master says:

Sit by his side and stroke him with one hand while your other hand rests on your thigh where he left it. Your pace stays gentle until he tightens his grip on your wrist. That's how you know you're allowed to go faster. You really need his guidance for everything… don't you?

#88

Master says:

Hold the base of his cock firmly and look up at him while you stroke the shaft with slow, obedient movements. Every time your eyes drop, you freeze until he lifts your chin. Good.
Stay focused on him. You're getting wet from just touching him — predictable.

#89

Master says:

Place both hands on his cock — one at the base, one above it — and stroke him in a steady rhythm. He'll use your hair as leverage whenever he wants to pull you closer. Whisper 'Yes, Sir' every time he guides you. You sound so needy when you say it..

#90

Master says:

Lie beside him and stroke his cock while keeping your legs spread, exactly as he left them.
Your hand doesn't stop unless he tells you to.
Good girl… desperate, obedient, and completely his to control.

#91

Master says:

Lie on your back and spread your legs wide for him. He'll slide his fingers inside you only when you're perfectly still. Every time your hips lift, he pulls out and waits. Look at him while he uses you — he likes seeing exactly how easily you open for him.

#92

Master says:

Kneel in front of him, then turn around and bend forward with your palms on the floor.
He'll push two fingers into you slowly, deliberately, just to hear your breath catch.
Don't move. Don't whine. He decides the depth… and you take whatever he gives you.

#93

Master says:

Sit on his lap facing away, legs spread for him like a needy little pet. He'll hold your chin up with one hand and finger you with the other, deep and slow. Pathetic how empty you feel the second he pulls out.

#94

Master says:

Press your face against the bed and arch your ass up. He'll finger you from behind, his thumb teasing your clit just enough to make you beg for 3 minutes.

#95

Master says:

Kneel in front of him and open your mouth.
He'll slide two fingers inside, resting them on your tongue. Suck slowly, hollow your cheeks, and keep your eyes on his the whole time.
For the next 2 minutes, you're nothing but a warm, obedient mouth for him to enjoy.

#96

Master says:

Sit at his feet and take his hand with both of yours. Guide his index finger into your mouth and suck it gently while he holds your chin still.
No teeth, no noise — just pure submission.
You do this for exactly 2 minutes.

Lie on your stomach and let him kneel beside you. When he pushes three fingers against your lips, you open instantly. Suck them deep, as if you're practicing for his cock. He'll use your mouth for 3 minutes, changing the pace whenever he pleases.

#98

Master says:

Crawl into his lap and rest your head on his thigh. He'll shove his fingers into your mouth at his own rhythm, and you follow without hesitation. Suck greedily, like you're trying to impress him. You keep going for 5 minutes, no matter how overwhelmed you get — he loves watching you struggle to please him.

#99

Master says:

Sit on the floor at his feet and lift your legs slowly. Wrap your soft soles around his cock and hold them tight together. For 3 minutes, stroke him exactly how he moves you — nothing more, nothing less.

#100

Master says:

Lay back and stretch your legs toward him.
Press your feet around his cock and start sliding them up and down — just how he expects from a desperate little submissive trying to please her Sir.
He'll correct your pace by gripping your ankles.
Do it properly for 2 minutes, without losing contact once.

#101

Master says:

Sit with hands tied behind your back and place his cock between your feet.
He'll watch how hard you try with such limited control. You keep serving him like this for 4 minutes, showing him exactly how obedient your whole body can be.

#102

Master says:

Kneel in front of him in your high heels, wrists tied tight behind your back. Open your mouth and stay still while he holds your hair and guides your face to his cock. You take whatever depth he chooses — you don't have hands to help yourself anyway. For 3 minutes, he uses your mouth exactly how he wants, and you focus on staying obedient… and pretty.

#103

Master says:

Stand in your heels and turn around slowly, wrists still bound. He'll pull your hips back and slide into you from behind, hard and deep. All you can do is take it and stay balanced — if your legs shake, he'll enjoy it even more. For 4 minutes, he fucks you at his rhythm while you try not to collapse under him.

#104

Master says:

Bend over the edge of the bed, heels on the floor, wrists tied behind you so you can't run from him. He'll push his cock into your ass slowly at first… only to go deeper once he hears your breath break. You stay perfectly still and offer yourself. For 5 minutes, he owns your body from behind, and you take every inch like a good little slut.

#105

Master says:

Kneel in front of him, wrists bound, heels sinking into the floor. Keep your mouth open and your eyes up. For 2 minutes, you do nothing but beg for his cock — softly, desperately, shamelessly. You don't get to touch him. You just prove how badly you need to be used.

#106

Master says:

Sit at his feet and place the tip of your high heel against his cock, wrists still tied behind your back. Slide the shoe slowly along his shaft while he watches how careful and obedient you are. Give him a perfect shoejob for 1 minute without losing eye contact.

#107

Master says:

Kneel in the dungeon dust, wrists tied tight behind your back. You really thought you two would 'cooperate' down here? How cute. How unbelievably naïve. He grabs your hair pulling you forward onto his cock. For 3 minutes, he fucks your face at whatever pace he wants,
You're not in control. You never were.

#108

Master says:

Bend over, heels spread, wrists bound above your head. He slides an anal plug into you slowly, only to push it deeper when your breath shakes. You thought he'd be gentle because the two of you 'agreed' to play? Adorable. For 4 minutes, he inspects you with his fingers around the plug, spreading you open, teasing you, owning every reaction your body gives him.

#109

Master says:

For 5 minutes, he fucks you against the wall, one hand around your throat, the other on the cuffs on your wrists behind your back, reminding you exactly who rules this dungeon.

#110

Master says:

Kneel with your thighs spread, ropes biting into your skin. He slips two fingers inside you suddenly, curling them deep while his thumb circles your clit in brutal, teasing strokes. You gasp like you didn't expect him to take what he wants. Really? After everything?
For 2 minutes, he fingers you relentlessly, just to show you how easily he can break your composure.

#111

Master says:

Put the blindfold on and kneel.
Hands behind your back, stay perfectly still while he inspects every inch of you with his fingers.
For 2 minutes, you take whatever touch he gives — slow, teasing, unpredictable.

#112

Master says:

He puts the gag between your lips and tightens it. Kneel, heels apart, wrists tied.
For 3 minutes, you hold that position while he brushes his cock across your face, watching you drool around the gag.

#113

Master says:

Wrists tied above your head, headphones on so you can't hear him. You stand in your heels, blind to every movement. For 4 minutes, he touches you wherever he wants — abruptly, softly, cruelly — keeping you guessing in the dark.

#114

Master says:

Lie on your back, blindfolded, hands taped to the sides. For 4 minutes, he runs just his fingertips over your thighs, stomach, and pussy — never giving you what you hope for, just enough to make your body twitch.

#115

Master says:

He gags you with open-mouth gag, ties your wrists behind you, and pushes you onto your knees. Blindfold on.
For 5 minutes, you stay there with your mouth open — presenting yourself, helpless, waiting for whatever he chooses to give.

#116

Master says:

Kneel, slut. Wrists tied, blindfold on.
He grabs your hair and drags your face onto his cock. For 3 minutes, he fucks your throat without mercy — you gag, you drool, you choke, and you stay right where he keeps you. That's all you're good for.

#117

Master says:

Bend over the chair, plug already deep in your ass. Open your mouth and let spit fall onto the floor while he holds your hair tight.
For 4 minutes, he fingers and fukcsyour pussy brutally, just to watch your body shake around the plug. Don't pretend you're not loving it, slut.

#118

Master says:

He throws you onto your back, wrists bound to your thighs. You're spread open like a pathetic toy. For 5 minutes, he slaps your pussy, then fucks it hard, holding you down as you moan through your gag. You wanted to 'escape the dungeon'? Sweet. Sit still and take it, slut.

#119

Master says:

Face down, ass up, heels still on, wrists tied behind you. Use your heels to stroke him while he spreads your ass and pushes a finger inside.
For 2 minutes, you serve him like the helpless dungeon slut you are.

#120

Master says:

Kneel with your mouth open, plug in, wrists tied tight. He pushes his cock against your lips but doesn't let you have it — not yet.
For 1 minute, you beg like a filthy slut with drool running down your chin, just to get face-fucked for 4 minutes while he laughs at how desperate you've become.

#1

You're his Reward

Kneel. Open your mouth. Hands tied behind back. He grabs your hair and fucks your throat, holding you exactly as long as he wants. You gag, choke, drool - he doesn't stop. You're not a teammate now. You're his trophy.

#2

You're his Reward

He throws you onto your stomach, shoves your legs apart, tying you all up and takes you hard from behind. No rhythm you choose. No mercy you expect. He fucks you like he's claiming a reward - because he deserves that.

#3

You're his Reward

He pins your wrists and ankles to bed cuffs and fucks you deep, fast, relentless. You don't look away. He finishes on your face or boobs - wherever he chooses - because he marks what he owns.

#4

You're his Reward

He stands over you while you kneel, ruined and obedient with hands tied. He shoves his cock into your mouth and uses you until he finishes down your throat. You swallow immediately. That's the price of losing. That's the oath of his property.

#5

You're his Reward

He throws you to your knees, grabs your hair, and uses your face until he finishes all over it. Your hands are tied up. You hold perfectly while he collects the cum from your face with a spoon and then puts it in your mouth. That's the only reward you deserve, loser.

#6

You're his Reward

You will be tied up, blindfolded, and suck his dick in your mouth until he cums inside it. Then a ball gag will be placed over your mouth and remain there until you swallow all of his cum. How long do you want to prolong your suffering and his reward?

#7

You're his Reward

He flips you over and pushes a plug into your ass. As long as you have it inside you, you turn into a sex doll that will obey every command of your new Master.

#8

You're his Reward

He sits down on the couch while you kneel tied up with a dildo in front of you. For 5 minutes, you give that dildo a blowjob, choking on it, deepthroating it, and looking into the eyes of your new Master, who occasionally pushes your head deeper. After 5 minutes, it's time for the real test - your Master's cock.

#9

You're his Reward

Your new master has just acquired a new sex toy - you. You lie naked on the floor and submit to his inspection - he checks how tight your ass is, how many fingers your pussy can take, how deep your throat is. He can tie you up, put a ball gag and blindfold on you, and watch or fuck you and cum on your face. You are all his. You are his reward.

#10

You're his Reward

It seems that winning this game was your only chance to escape. Unfortunately, you're a loser and you're tied to the bed, gagged, blindfolded, and degraded to the role of your new master's sex toy. For the next few hours, you'll be fucked, teased, used, and left completely ignored until he gets bored with you.

#11

You're his Reward

Kneel before your new Master, worship him, and ask him to strip you of your last shred of dignity, turning you into his personal Slut. Obey his every command. Every single one.

#12

You're his Reward

You have 5 minutes to hide from your new Master in this "dungeon". You can resist until his thumb is in your mouth or until he ties you up. From now on, you are completely obedient to him. Let him play with his new toy. You.

You're his Reward

You lost. You are tied up, and after a moment, every hole in your body is filled - anal plug, dildo, and ball gag. Plus a blindfold. Your new Master will enter each of your holes in turn, leaving the other two filled and plugging again the one he has used.

#14
You're his Reward

In this game, the loser is humiliated. You will kneel in front of him with your hands tied and give your new Master a blowjob until you get a facial. Then you will kneel like this for 30 minutes in the middle of the room as his trophy for winning the game. Photos and videos are allowed.

#15
You're his Reward

Defeat in the dungeon is painful.
Your new Master has all the sex toys he can find in that Dungeon and can use them on you however he wants. If I were him, I would tie you up and gag you first, looser.

#16
You're his Reward

Look at yourself! Your new Master is standing in front of you, and you want to serve him like that? Go get ready, fix your makeup, put on some lipstick and perfume, and kneel before him. Ahh... All this so that you can be ruined by his dick with your saliva, on your pretty, slutty face. Yes, suck him until your tears ruin your mascara, slut.

#17
You're his Reward

Since you lost this game, every part of your body belongs to your new Master. Especially those beautiful lips that are begging to be used...
Ask him to tie you up and use your mouth however he wants. Open-mouth gag? Deepthroat? Whatever he wants. You are his reward. Behave yourself.

#18
You're his Reward

You lost and you don't even deserve to be your new Master's toy. Kneel down, tied up, with your mouth open and blindfolded. He will masturbate to XXX videos, and you will only hear the sounds in the background. When he starts to cum, he will put his dick in your mouth, and you will swallow every drop of cum that lands in your mouth. You have been degraded to the role of a cum dumpster. Wait for the next wave.

#19
You're his Reward

Kneel before your new Master with your hands tied behind your back. He will fuck your mouth however he wants. Finally, he will cum in your mouth and cover your mouth with his hand so you can't spit it out. You can beg with your eyes. Do you think your new master is cruel? Wait until he covers your nose too...

#20
You're his Reward

Do you think your new master has forgotten how you treated him during the game? He ties you up and fucks you hard. He can insult you, humiliate you, and call you names. All you can do is apologize and beg for forgiveness.

#21
You're his Reward

Your hands are tied behind your back,
a ball gag in your mouth, an anal plug inside you.
Beg for his attention, because you will remain in this state until he is satisfied by you.
Yes, until you make him cum.

#22
You're his Reward

It seems that your new master is a fan of anal.
Face down, ass up - with your hands tied behind your back. Your master first plays with an anal plug, then fucks your ass. It's your first time? Poor, little slut. I bet it's not your last time.

#23
You're his Reward

Your new Master ties you up in a hogtie position.
You already look like a trophy for winning the game. But he may have an additional use for you... You are a toy that gives blowjobs whenever it feels a dick on its lips.
Even with a blindfold and an anal plug inside you. Your number of uses is unlimited.

#24
You're his Reward

It looks like you have two Masters now. Your hands are tied behind your back, and you're giving your new Master a blowjob while riding a dildo that you imagine is your other Master's dick. Have fun, slut.

#1

Mistress says:

Kneel at her feet and start massaging her calves slowly. She'll tap your cheek with her toes whenever your pace displeases her. And yes — she expects you to apologize instantly.
You thought serving her would feel dignified?
Poor thing...

#2

Mistress says:

Lie on the floor with your hands behind your back. She'll sit on your chest and order you to kiss her feet — soft kisses, obedient licks, nothing else. Struggling to breathe under her weight already? Pathetic. Keep going for 2 minutes

#3

Mistress says:

Crawl to her and massage her feet in complete silence. Kiss her toes every time she flexes them. One sound without permission and she'll push you flat with her heel. You really believed you'd impress her quickly? Adorable.

#4

Mistress says:

Sit behind her and massage her shoulders exactly how she wants.
When she leans forward, you freeze.
When she leans back, you dig deeper.
You're learning to obey her body, not your thoughts. Good boy... or at least trying to be.

#5

Mistress says:

Take off her shoes slowly and place them neatly at her feet.
Massage her feet just the way she likes it. When she curls her toes, you lean down and kiss them — instantly. That's right. Show her how desperate you are for approval.

#6

Mistress says:

Kneel behind her and massage the backs of her thighs. She'll guide your hands lower or higher when she feels like it. Her body decides your rhythm — not you. Did you think you were doing well without her command?
Try again.

#7

Mistress says:

Turn around, hands behind your back.
She'll place her feet on your face so you can worship it with your lips and tongue.
Look at you struggling to please her without using your hands.
Pathetic... and exactly how she wants you.

#8

Mistress says:

Lie on your back. She'll straddle your face slowly, lowering herself just enough for you to taste her. You'll worship with your tongue for 3 minutes while she controls every breath you get.
Did you think she'd be gentle?
Poor thing...

#9

Mistress says:

Put your hands behind your back — now.
She'll sit on your face fully, grinding on your mouth while your air disappears beneath her thighs for 4 minutes.
Try to keep up with her rhythm, toy... or she'll ride you harder.

#10

Mistress says:

She sits on your face, pinning you down effortlessly. While you're buried under her, she stretches her leg forward and orders you to kiss her foot whenever she lifts herself for 2 minutes.
Yes — multitasking isn't your strength.
She knows.

#11

Mistress says:

She turns around and sits on your face backwards, smothering you in darkness. You'll lick exactly where she presses you — no wandering for 3 minutes.
And no, you don't get to touch her pussy with your hands. Your tongue is enough.

#12

Mistress says:

Kneel.
She'll grab your hair, throw you onto your back, and sit on your face hard for 3 minutes.
Every time you slow down, she slaps your dick with her hand. Hard. Consider it encouragement, slut.

Open your mouth.
She lowers herself until your lips seal around her pussy, and you start drooling instantly for 2 minutes. She'll use her hips to force your tongue deeper. Look at you — dripping and obedient. Exactly as she expects.

#14

Mistress says:

Lie down. She'll sit on your face, then place her foot on your chest to keep you from squirming for a minute. Every breath you take will come through her thighs — if she lets you have one.
Pathetic how quickly you give in.

#15

Mistress says:

She lowers herself onto your mouth and holds your head in place. 'Look at you… begging for a taste like a starving pet.'
You'll lick harder whenever she mocks you for 4 minutes — because you know she's right.

#16

Mistress says:

She straddles your face and reaches back to grip your cock firmly. You'll lick every inch she gives you while she edges you with her hand. If you get too close, she squeezes your cock and pushes your face deeper into her. Don't lose control, toy… she hasn't decided whether you deserve anything yet.

#17

Mistress says:

Kneel in front of her and repeat, loudly and clearly: "I exist to entertain you." She'll grab your jaw and make you say it again while she taps your cheek with her fingers. For 2 minutes, you stare at her thighs and humiliate yourself exactly the way she wants.
Try not to stutter, toy.

#18

Mistress says:

Lie on your back and spread your legs.
She'll stand over you, looking down like you're something she stepped around, not over.
For 4 minutes, you'll stroke yourself slowly while she mocks your need: 'Look at you… getting hard from being degraded. Pathetic.' Yes — you keep eye contact the whole time.

#19

Mistress says:

Open your mouth. She'll press two fingers against your tongue and command you to beg for the privilege of licking her pussy.
For 1 minute, you beg with drool running down your chin while she stays fully out of reach.
And no, she won't let you touch her yet.

#20

Mistress says:

Sit up straight with your hands behind your back. She'll place her foot on your face and push you down slowly. For 5 minutes, you'll kiss her sole each time she presses her foot harder, thanking her for "using you properly."
Her laugh? Yes, she's laughing at you.

#21

Mistress says:

Get on your knees and present your face.
She'll slap your cheeks, alternating sides, just to watch your expression break. For 3 minutes, you worship her fingers with your mouth while she calls you her "obedient little embarrassment."
Don't flinch — she hates that.

#22

Mistress says:

Crawl around her in a circle, head down.
She'll walk slowly, letting the tip of her heel brush your back as she mocks you:
'This is the only place you look natural — beneath me.' You keep crawling for 2 minutes, showing her how low you can sink.

#23

Mistress says:

Kneel between her legs and hold your tongue out. She'll grind against your face lightly, not enough to satisfy her — just enough to frustrate you. For 4 minutes, you lick wherever she presses you while she says: 'Good boys lick. Useless boys wait.' Let's see which one you are.

#24

Mistress says:

Place your hands behind your back and stand still.
She'll stroke your cock lazily with just two fingers, watching how quickly your breath changes.
For 5 minutes, she edges you while whispering the filthiest truths into your ear: 'You're nothing but a hard cock begging for my attention.' Try not to whine.
She hears everything.

Sit on your knees and hold your mouth open. She'll spit directly onto your tongue — once, then twice — enjoying the look of humiliation on your face. For 2 minutes, she makes you thank her after each drop. Say it clearly. She doesn't like sloppy gratitude.

#26

Mistress says:

Lie on the floor, legs spread, cock exposed. She'll step between your thighs and lower herself only enough for you to smell her, not taste her. For 3 minutes, you beg for permission to lick her while she ignores your words and runs her fingers through your hair mockingly. She wants to hear how desperate you get.

#27

Mistress says:

Kneel and open your mouth. She lowers her pussy close to your lips — close enough to taste, not close enough to touch. For 3 minutes, you hold position while she laughs at your desperation. If your tongue twitches early, she'll slap your cheek for being overeager.

#28

Mistress says:

Lie on your back with your wrists above your head. She pins them there with one hand while stroking your cock slowly with the other. For 5 minutes, she stops every time you react — because your frustration entertains her more than your pleasure.

#29

Mistress says:

Sit on your knees, hands behind your back. She places her foot on your thigh and orders you to worship up her leg with slow kisses. For 2 minutes, you climb only as high as she allows. Miss her cue, and she'll push your face back down.

#30

Mistress says:

She shoves you onto your stomach and straddles your hips. Her nails drag down your spine while her fingers tease your ass, opening you slowly, deliberately. For 4 minutes, you stay relaxed — her decisions override your instincts completely.

#31

Mistress says:

She grabs your hair and drags your face between her thighs. You lick exactly where she presses you — nowhere else. For 3 minutes, if your rhythm slips, she tightens her grip and forces your mouth into obedience.

#32

Mistress says:

Lie with your legs spread, cock exposed. She strokes the base with the tip of her shoe, staring down at you like the thing she owns. For 2 minutes, your hips stay frozen. Move once, and she'll punish the disobedience instantly.

#33

Mistress says:

Sit on the edge of the bed. She climbs onto your lap, pinning your wrists to your sides while grinding against your leg. For 3 minutes, you act only as a surface for her pleasure. Say "Thank you, Miss" every time she moves.

#34

Mistress says:

Crawl to her and rest your head on her foot. When she snaps her fingers, you offer your tongue. For 2 minutes, you suck her fingers while kneeling at her feet — because that's exactly where you belong.

#35

Mistress says:

She forces you onto your knees, steps behind you, and slides her hand from your throat down to your cock. When your body tenses, she squeezes both — lightly, then possessively. For 4 minutes, she toys with your reactions just to remind you: 'Your body reacts because I tell it to.'

#36

Mistress says:

Sit on your knees and keep your hands behind your back. She'll stroke your cock with just one finger, never fully wrapping her hand around it. For 2 minutes, you'll stay painfully hard while she whispers: 'You're not getting anything real yet… poor desperate boy.'

#38

Mistress says:

Stand still. She'll grip your cock firmly… then release it instantly. For 1 minute, she repeats the same torture: touch-release, touch-release, watching your breath break every time she pulls away. Pathetic how easily she controls you.

#39

Mistress says:

Sit at the edge of the bed.
She'll straddle your thighs but keep her pussy far above your cock. For 3 minutes, she teases you with slow, lazy hip rolls, just to watch how badly you want a contact she refuses to give.

#40

Mistress says:

Kneel and put your tongue out.
She'll hold her finger just above it — never touching, always denying. For 4 minutes, you'll beg for the privilege of licking her,
while she smiles like the goddess she is:
'You don't get to earn me that easily.'

#41

Mistress says:

Lie with your legs apart.
She'll stroke just the tip of your cock with feather-light touches, never sliding down the shaft. For 2 minutes, you hold perfectly still, knowing that a single twitch will make her stop completely.

#42

Mistress says:

Sit with your back straight.
She'll place your head between her thighs — not pressing, just holding you there.
For 3 minutes, you'll feel her warmth, her scent, her power… and absolutely nothing more.
You're not worthy of contact yet.

#43

Mistress says:

Crawl toward her slowly.
Each time you get close, she steps back.
For 1 minute, she makes you follow her around like an eager pet, denying every attempt you make to reach her skin.

#44

Mistress says:

Sit on your knees with your cock fully exposed.
She'll hover her hand inches above it,
tracing the air, never touching.
For 4 minutes, she keeps you right at the edge with nothing but presence and control.
She owns your reactions.

#45

Mistress says:

Lie flat with your mouth open. She'll press her pussy against your lips for a second… then pull away. Again. And again.
For 3 minutes, you're denied every single time you think you're finally getting what you want.
She loves watching that hope die in your eyes.

#46

Mistress says:

You will lie bound and naked. She will climb on top of you and put the tip of your dick inside her pussy. Just an inch. Beg her for 3 minutes to put your entire dick inside her pussy, as if your life depended on it. Pathetic.

#47

Mistress says:

Kneel at her feet and place your tied hands behind your back. She'll extend her foot toward your mouth, and for 3 minutes, you'll kiss every toe slowly, deliberately, while she watches your humiliation with amusement. Try not to moan — she didn't give you permission for that.

#48

Mistress says:

Get on all fours. She'll rest the tip of her high heels under your chin and lift your face. For 4 minutes, you'll lick the heels clean — toe to heel — because that's all a desperate toy like you is good for.
Don't miss a spot… she's checking.

She'll blindfold you and sit beside you,
like you're just furniture.
For 3 minutes, she sucks the dildo slowly -
loud enough for you to hear every wet sound -
while completely ignoring your existence.

#50

Mistress says:

She gags you with a ball gag and places the dildo on your chest.
For 4 minutes, she fucks the dildo with her pussy while using your body as a table.
You feel every movement — but you're not part of it. You're just a surface. A prop.

#51

Mistress says:

She grips your hair and pushes the dildo against your lips. For 1 minute, you suck it while gagged, drooling all over yourself as she mocks how eager you are. Then she pulls it away and leaves you open-mouthed with nothing.

#52

Mistress says:

She steps forward, marking the floor with her heel. For 2 minutes, you follow her path on your hands and knees, kissing every spot her foot touches. Look up at her only when she pauses — she loves seeing the devotion in your eyes.

#53

Mistress says:

Sit at her feet, mouth open, hands tied behind your back. She'll place her heel on your chest and command you to clean the entire shoe with your tongue. For 2 minutes, you'll lick around the straps, the arch, the sole — all of it.
The dirtier it tastes, the more she smirks.

#54

Mistress says:

Lie on your back.
She'll place her foot on your cheek and slowly drag it across your mouth.
For 2 minutes, you kiss wherever her foot moves — because your lips belong to her skin, not to your desires.

#55

Mistress says:

Kneel and spread your legs.
She'll press her bare sole against your chest, pushing you slightly backward.
For 3 minutes, you kiss, lick, and worship the bottom of her foot while she keeps you pinned with effortless dominance.

#56

Mistress says:

Kneel with your chest to the ground.
She'll place her boot on the back of your head and foot under your chin.
For 2 minutes, you kiss her foot under her control, feeling exactly how easily she can push you even lower.

#57

Mistress says:

She ties you face-down and straddles your back.
For 5 minutes, she fucks herself with the dildo while using your bound body only for balance and leverage.
She doesn't speak to you.
You're just an object under her pleasure.

#58

Mistress says:

She blindfolds you, gags you, and ties your hands. For 4 minutes, she thrusts the dildo into herself while you lie helpless next to her.
Every moan she lets out reminds you how unnecessary you are to her pleasure.

#59

Mistress says:

She ties you to the bed, arms wide, legs spread.
Then she kneels between your thighs with a dildo and fucks her mouth while staring straight into your eyes. For 3 minutes, you watch her take pleasure from something that isn't you — because she prefers the toy over you.

#60

Mistress says:

She rolls you onto your back, gagged and tied.
For 5 minutes, she fucks herself aggressively with the dildo right above your face,
letting her juices drip onto your face but never letting you touch her.
You're close enough to smell her... and too insignificant to use her.

#61

Mistress says:

She pushes the dildo into your mouth and fucks your throat with it while holding your jaw.
Then she pulls it out and immediately uses it on herself, moaning while you lie bound and useless.
For 2 minutes, you watch her ride the toy you just sucked — because that's your purpose: to prepare things for her pleasure.

#62

Mistress says:

Spread your legs. She'll grip your balls in one hand and squeeze slowly, increasing pressure each time your breath breaks. For 2 minutes, you hold eye contact while she tests how much your pretty little body can take. Don't flinch — she hates weakness.

#63

Mistress says:

Lie on your back with your hands tied over your head. She'll slap your cock lightly at first… then harder. For 4 minutes, she alternates between teasing strokes and sharp smacks. Every sound you make earns a colder smile from her.

#64

Mistress says:

Kneel.
She'll place her heel under your balls and lift — gently, then not so gently.
For 2 minutes, you stay perfectly still while she applies pressure exactly where she wants it.
You tremble beautifully for her.

#65

Mistress says:

She ties your wrists and ankles, spreading you wide. For 5 minutes, she massages your balls with slow, deliberate movements…
only to suddenly tighten her grip whenever you relax. She enjoys teaching your body not to trust comfort.

#66

Mistress says:

Sit up straight. She'll wrap her hand around your cock and squeeze the base hard enough to make you gasp. For 3 minutes, she keeps you on the edge of pain and pleasure,
mocking how easily she can control your entire body with just one hand.

#67

Mistress says:

Lie down and keep your legs open.
She'll flick your balls with her fingers — soft, soft, hard. For 2 minutes, she repeats the pattern, enjoying how you bite back sounds you're not allowed to make. Good. Suffer quietly.

#68

Mistress says:

She kneels between your legs and cups your balls in her palm. For 4 minutes, she alternates squeezing one, then the other, while whispering that they belong to her… and she can do whatever she wants with what's hers.

#69

Mistress says:

Stand still. She'll slap your cock from side to side while staring directly into your eyes.
For 1 minute, you accept each hit without stepping back. Cowardice will not be tolerated.

#70

Mistress says:

She blindfolds you and pushes you onto your back. For 5 minutes, she uses her nails — dragging them down your shaft, tip, circling your balls, light scratches at first, deeper when she hears your breath spike. Your helplessness turns her on more than you'll ever know.

#71

Mistress says:

Kneel with your thighs spread. She'll hold your balls in one hand and your throat in the other.
For 3 minutes, she squeezes both in alternating pulses — controlling your air, your cock, your reactions, your entire body. You exist for her grip.

#72

Mistress says:

Kneel with your chest forward and your ass exposed.
She'll spank you with her hand — slow at first, then with sharp, sudden strikes.
For 2 minutes, you take every slap without pulling away.
She wants to hear the sound more than your voice.

#73

Mistress says:

Bend over the edge of the bed.
She'll use the wooden paddle on your ass, alternating cheeks.
For 2 minutes, she hits in a steady rhythm and watches the redness build under her control.
Don't clench — it only amuses her.

#74

Mistress says:

Stand still. She taps the inside of your thighs with the crop before delivering one sharp strike.
For 3 minutes, she trains you to stay perfectly still for each hit, mocking every flinch you fail to hide.

#75

Mistress says:

Lie on your stomach, hands behind your back.
She pulls off her belt slowly, letting the sound torture you before it even hits.
For 3 minutes, she lashes your ass and thighs with deliberate, cruel precision.
Every gasp earns a colder smile.

#76

Mistress says:

Kneel upright.
She swings the flogger across your chest and shoulders, soft strokes first, then stingy ones.
For 3 minutes, she plays with intensity just to watch your body shake under her rhythm.

#77

Mistress says:

She puts on latex gloves and steps close to your face. For 2 minutes, she alternates cheek slaps and fingering your mouth — controlled, humiliating, precise.
You keep your eyes on hers the entire time.
Look away once and she'll hit harder.

#78

Mistress says:

Kneel on all fours.
She uses a wooden spoon to smack your inner thighs and ass,
stinging, sharp hits that leave instant heat.
For 4 minutes, you breathe through it —
she likes watching you struggle to stay obedient.

#79

Mistress says:

Stand with your legs apart.
She'll slap the inside of your thighs with her bare hand, each hit harder than the last.
For 3 minutes, she forces you to hold the position, testing your endurance and devotion.

#80

Mistress says:

Lie on your back. She'll climb on top of you, pin your wrists above your head with just one hand, and sit down on your cock without waiting for you to adjust. For 3 minutes, she rides you at her pace — hard, unforgiving, using your body like a toy. You're not allowed to thrust. She'll smack your face if you try.

#81

Mistress says:

She pushes you onto the floor and straddles your hips, planting her hands on your chest to keep you down. For 4 minutes, she grinds on your cock with slow, cruel control — lifting herself just enough to tease, then slamming down to take everything. Your moans don't matter; her pleasure does.

#82

Mistress says:

Sit with your back against the wall.
She grabs your hair, lowers herself onto your cock, and uses your body for leverage as she fucks herself on you. For 2 minutes, you keep your hands behind your back. Touch her once and she'll slap you for forgetting your place.

#83

Mistress says:

She pins your shoulders to the mattress with her thighs, locking you beneath her.
Then she lowers her pussy onto your cock and fucks you with steady, ruthless rhythm.
For 5 minutes, she decides your depth, your speed, your oxygen — everything.
You're just the thing she uses to get off.

#84

Mistress says:

She ties you to the bed, puts a blindfold on you, a ball gag, and rides you for 3 minutes. Expect slaps on your face for being too weak.
This is not the time for your pleasure, only hers.

#85

Mistress says:

Get on your hands and knees.
She'll tie your wrists to your ankles, leaving your ass helplessly exposed. Then she stands behind you, slides the strap-on between your cheeks, and whispers in your ear: 'Look at you… ready to be used like the little hole you are.' For 3 minutes, she pushes in slowly, stretching you open while mocking every sound you make.

#86

Mistress says:

She orders you to lie face-down and spreads your legs with her foot planted firmly on your thigh. She'll run the tip of the dildo over your entrance while saying, 'Tell me how badly you want to be fucked… louder.' For 5 minutes, she thrusts into you with steady, merciless rhythm,
laughing whenever your hips try to escape her.

#87

Mistress says:

She binds your wrists above your head and gags you with a ball gag. Standing behind you, she presses the dildo against your ass and says:
'You're going to take this quietly. Nod.' For 1 minute, she fucks you shallow and fast, just to watch drool spill down your chin as you struggle to stay still.

#88

Mistress says:

She forces you onto your back with your knees pushed to your chest. Her hand on your throat, her strap-on at your hole. She leans down and whispers: 'You exist to be filled. Don't pretend otherwise.' For 4 minutes, she thrusts deep while holding your throat, your helplessness fueling her amusement.

#89

Mistress says:

Kneel with your face against the mattress, blindfolded. She'll press the dildo to your ass and command you to beg for it properly. Not good enough? She'll slap your ass and make you start over. For 2 minutes, she alternates slow, dominating thrusts with humiliating commentary: 'Good boy… take it like the toy you are.'

#90

Mistress says:

Kneel with your chest to the floor and your ass raised for her inspection. She'll spread you open with two fingers, push the plug against your hole, and whisper, 'Relax. You're here to be filled, not to think.' For 2 minutes, she slides the plug in and out slowly, watching how your body twitches each time she deliberately pulls back.

#91

Mistress says:

Lie on your back, wrists tied above your head. She inserts the lubed beads one by one, mocking every gasp you make: 'So sensitive… so easy to open.' For 4 minutes, she pushes them in slowly, then yanks them out halfway just to hear how helpless you sound trying not to scream.

#92

Mistress says:

Stand on your knees with your ass exposed. She'll press the dildo to your entrance and circle it there — not pushing in, just teasing the edge while you beg. For 3 minutes, she alternates shallow penetration with humiliating commentary: 'Look at you, already opening for me. Pathetic little hole.'

#93

Mistress says:

She twists your wrists together with rope and pushes you onto the bed. While the plug stays deep inside you, she grips your cock firmly at the base. For 5 minutes, she strokes you slowly while rotating the plug with her other hand — not to pleasure you, but to remind you she controls
both ends of your body.

#94

Mistress says:

Bend forward, legs wide. She'll spread your cheeks with both hands, lean in close, and say: 'This is mine to use. Not yours.' For 3 minutes, she taps your hole with the tip of a dildo, alternating sharp slaps to your ass with sudden, shallow thrusts. You hold position and take it — every second of it.

#95

Mistress says:

Sit on your knees with your chastity cage exposed. She'll drag her nails slowly along the bars, tapping the metal just to watch your whole body tense. For 3 minutes, she strokes everywhere except the part you're desperate for her to touch. 'Hard for me? In a cage? Pathetic.'

#96

Mistress says:

Lie on your back. She'll straddle your face and lower her pussy close enough for your breath to warm her skin — but not close enough to taste.
For 5 minutes, you worship her with your eyes while she mocks your locked, useless cock:
'You can lick me… but you'll never earn release.'

Mistress says:

Kneel and spread your legs.
She'll press the sole of her foot against your chastity cage and grind lightly. For 2 minutes, she toys with you using nothing but her foot, laughing softly each time your hips jerk because the metal won't let you get harder.

#98

Mistress says:

Stand still. She kneels in front of you — not to pleasure you, but to humiliate you. For 1 minute, she licks the bars of your chastity cage, sucking on the tip of the metal as if it were you. Then she pulls back and says, 'You wish.'

#99

Mistress says:

Lie flat on your back, hands tied over your head. She'll climb onto your hips and grind on your caged cock, using your body for her pleasure only. For 4 minutes, she rides the cage, not you — feeling nothing inside her, knowing it drives you insane. 'Look at you... so hard, so useless.'

#100

Mistress says:

Sit on your knees and open your mouth wide. She'll lean over you, letting a thin string of spit fall directly onto your tongue. For 2 minutes, she feeds you mouthful after mouthful, mocking how obediently you swallow: 'Good. You take my spit better than you take instructions.'

#101

Mistress says:

She gags your mouth open with her fingers and orders you not to swallow.
For 4 minutes, drool runs down your chin onto her hand while she holds your jaw still.
When she finally removes her hand, she wipes it across your face like you're nothing but a messy pet.

#102

Mistress says:

Kneel with your hands tied behind your back and stick your tongue out fully. She'll walk around you, tapping your cheek, your jaw, your lips with her finger. For 3 minutes, you hold that humiliating posture while she says: 'Look at you... already begging without even speaking.'

#103

Mistress says:

Open your mouth. Wider. She grips your chin, pushes two fingers inside, and inspects you like an object she's considering buying. For 2 minutes, she explores your mouth with her fingers, laughing when you gag around them: 'Pathetic. And that's exactly why I enjoy using you.'

#104

Mistress says:

She holds the dildo in front of your face, spits on it slowly, and spreads it with her thumb.
For 5 minutes, you lick it clean while she holds your hair, forcing your tongue to follow the path she chooses and spitting again and again.
'You're lucky I let you touch even this... little slut.'

#105

Mistress says:

She shoves you onto your knees without warning, gripping your hair tight. 'Did you really think you get to prepare yourself? Cute.' For 3 minutes, she drags your face against her pussy, forcing you to lick and suck like a pathetic, needy toy.
You don't resist — you don't get to.

#106

Mistress says:

Lie on your stomach. She plants her foot on your back and pushes your head into the mattress. 'Struggling already? And I haven't even started.' For 5 minutes, she grinds her heel into your spine while slapping your ass, mocking every sound you make: 'You're embarrassing... and I love it.'

#107

Mistress says:

She grabs your jaw and forces your mouth open. 'Hold it. Don't you dare close it.' For 3 minutes, she spit-talks humiliation into your face — calling you useless, needy, weak — while tapping your tongue with her fingertips like you're barely worthy of inspection.

#108

Mistress says:

She throws you onto your back, climbs over your chest, and pins your wrists down with her knees.
'You thought you could stop me? That's adorable.'
For 4 minutes, she slaps your chest, your thighs, your face lightly — not to hurt you, just to remind you how absolutely powerless you are beneath her.

For 2 minutes, she forces your mouth to take the dildo as she degrades you: 'Look at you… choking on something that isn't even real. What a useless slut.' And yes — she pushes deeper when you flinch.

#110

Mistress says:

She cuffs your wrists behind your back and pushes you onto your knees. Then she grabs your hair and sits on your face without asking if you're ready.
For 3 minutes, you breathe, lick, and obey under her thighs while she uses your face like a toy.
You're tied, helpless, and exactly where she wants you.

#111

Mistress says:

She folds you into a tight hogtie on the floor, your back arching, your cock exposed. Then she kneels beside you and drags the dildo from your balls up to your mouth. For 5 minutes, she alternates tapping your lips with it and teasing your dick — laughing softly at how powerless you look. 'Struggle harder… it won't help.'

#112

Mistress says:

She ties your wrists high above your head, stretching your body open for display.
Then she presses her pussy against your lips, but pulls away the moment your tongue moves.
For 2 minutes, she lets you taste nothing but her breath while she mocks: 'This is the closest you get unless you impress me.'

#113

Mistress says:

She straps your wrists and ankles to a chair, spreading your legs wide. Standing over you, she grips your cock with cold hands.
For 4 minutes, she strokes, slaps, squeezes, denies - controlling every twitch you make, while you sit there completely immobilized and desperate.

#114

Mistress says:

She ties your wrists to the top corners of the bed and your ankles to the bottom, leaving you stretched and open. Then she runs her finger teasingly along your hole and whispers, 'If you tense, I go deeper.' For 4 minutes, she circles your entrance with her finger or the tip of a dildo - never giving enough, just reminding you she owns every part of you.

#115

Mistress says:

She hogties you tightly, forcing your back to arch and your mouth to stay exposed. Then she stands over you, holds your jaw open, and spits directly onto your tongue before shoving the dildo into your throat. For 5 minutes, she fucks your face with it — slow, deep, merciless — laughing each time you choke because your body can't escape the rope. 'Struggle harder, toy… it makes me wet.'

#116

Mistress says:

She ties your wrists high above your head, spreads your legs with her foot, and slides the strap-on against your hole. 'Look at you… shaking, and I haven't even pushed yet.' For 4 minutes, she fucks you steadily, grabbing your throat when you try to pull away. Every thrust comes with a new insult: 'Take it. Take it like the little slut you are.'

#117

Mistress says:

She straps you to a chair, legs forced wide, wrists tied behind you. Then she stands over you and smacks your thighs with the crop before shoving two fingers into your mouth. For 3 minutes, you suck her fingers while she hits you rhythmically, mocking how your cock twitches even though you're completely immobilized.

#118

Mistress says:

She pushes you flat on the floor, sits on your face, and pins your arms with her knees.
For 2 minutes, she rides your mouth aggressively while your cock throbs untouched beneath her.
You can barely breathe — and she loves the panic in your body as she says: 'Your pleasure is irrelevant. Mine isn't.'

#119

Mistress says:

She drags you to your knees by the hair, bends you forward, and pulls the beads out slow and cruel. For 1 minute, she removes them one by one while whispering: 'Listen to your body… it reacts for me, not for you.' When the last bead slips out, she smacks your ass hard and calls you her 'pretty little hole.'

#120

Mistress says:

She ties your wrists and ankles to all four corners of the bed, stretching you wide and helpless. Then she lowers herself onto your face while pushing the dildo into your ass. For 5 minutes, she uses your mouth and your hole at the same time — her hips grinding on your face as her thrusts force your body to shake under her.
You're not a partner. You're equipment.
And she treats you exactly like that.

#1
You're her Reward 

You become your new Mistress's servant for as long as she desires. Start by pouring her victory champagne. When she spills it across her feet, you lick every drop - slowly, gratefully - cleaning her skin like it's an honor.
Because for the loser... it is.

#2
You're her Reward 

Your new Mistress prefers a sissy toy over a man — and you're not even close to either. Let her dress you in whatever humiliating feminine outfit she wants.
Then you're bound, exposed, and mocked as she plays with her new sissy pet.
Cry if you want. She'll only laugh harder.

#3
You're her Reward 

It seems your new Mistress is a devoted fan of anal. Face down. Ass up. Hands tied behind your back. She starts by teasing you with an anal plug... then pushes deeper, harder, until you're open for her strap-on. When she fucks your ass, she leans in and whispers: 'Your first time? Poor little slut... I guarantee it won't be your last.'

#4
You're her Reward 

Your hands are tied behind your back, a ball gag fills your mouth, and an anal plug keeps you open. You beg for her attention because you will remain exactly like this until she is satisfied by you. Yes — you don't get untied until you make her orgasm.
Her pleasure unlocks your freedom.
Fail... and stay bound like the pathetic toy you are.

#5
You're her Reward 

Your hands are tied behind your back, blindfold on, ankles cuffed. Your task: make yourself cum without using your hands, while your new Mistress humiliates you for every desperate movement. Rub against anything you want — the floor, the bed, a wall — but at the end you must lick every drop of your own cum off the floor. Every. Single. Drop.

#6
You're her Reward 

She fastens a collar around your neck, attaches a leash, and drags you behind her on all fours. You follow silently, cock leaking, plug inside you, gag helplessly muffling your breath. She stops, turns, and spits in your mouth. 'Good. Now show me how a broken toy begs.' You stay on the leash until you please her with your tongue exactly the way she wants.

#7
You're her Reward 

She ties you spread-eagle to the bed and climbs on top of you, grinding on your face while your cock throbs uselessly in the air. Every time you moan, she slaps your balls. Every time you whimper, she slaps your cock. You only earn release when you learn to take pain without making a sound — and she decides when you've earned it. Not you.

##8
You're her Reward 

You kneel in front of your Mistress, hands tied behind your back, blindfold covering your eyes. In front of you are multiple stages of foot worship. She spreads different foods across her feet - whipped cream, peanut butter, wine, anything she feels like tasting on your tongue. Your job: clean every inch with your mouth until her skin shines. The final task? She collects your cum, pours it over her feet... and you lick all of it off like the obedient slut you are.

#9
You're her Reward 

Your new Mistress prefers her vibrator over you. You're tied to the bed, a ball gag silencing your pathetic sounds, forced to watch as she brings herself to orgasm with her favorite toy.
If you're lucky, she might climax right above your face - close enough that you can feel her heat but not touch her. A perfect view for a useless loser.

#10
You're her Reward 

She wraps your entire body in bandages or plastic wrap, mummifying you completely. Only your nose and mouth remain exposed. Helpless, immobile, objectified. Then she straddles your face and uses you mercilessly- grinding her pussy on your trapped mouth until she orgasms hard against your breath. You're not a man anymore. You're furniture. A living seat.

#11
You're her Reward 

Your new Mistress ties you up, inserts a ball gag, and proceeds to completely ignore you while scrolling TikTok. You're nothing but background decoration... Until she randomly decides to sit on your face, or maybe give you post-orgasm torture with a vibrator, or maybe do noting at all. Your moans mean nothing. Your suffering is entertainment.

#12
You're her Reward 

Your new Mistress wants your cum - but she wants you to fight it. You're tied down with a condom on your cock, forced to resist cumming while she toys with you in every cruel, perfect way. Your body wants to surrender. She wants to watch you lose. And when you finally break, she empties the condom into your mouth and orders you to swallow everything. You were never going to win.

#13
You're her Reward

You're tied in a tight hogtie, blindfold on, ball gag in your mouth.
Your new Mistress grinds on the gag for 3 minutes... and then you eat her out until she reach her orgasm. If you fail to make her finish, you stay in that position for 2nd, 3rd, 4th... try.

#14
You're her Reward

You're strapped to the bed, helpless and exposed, while your new Mistress uses every sex toy available in the Dungeon on you.
All of them. One after another.
No mercy.
Until you beg her to stop.

#15
You're her Reward

Your new Mistress looks cruel - because she is. You're tied to a chair, and your dick is sounded with a metal rod.
Starting with the thinnest one...
moving up until she finds the one that breaks you. Let's see how deep it goes...

#16
You're her Reward

You're tied to the bed in a 69 position.
But she doesn't use her mouth on you - only her hand. She gives you a relentless handjob while sitting on your face, and you must give her orgasm before she makes you finish.
If not, you're sentenced to post-orgasm torture.

#17
You're her Reward

You're restrained with an open-mouth gag and a condom on your dick.
Your new Mistress rides you until you cum - and when you do, she removes the condom and dumps every drop of your load straight into your open mouth. You swallow because you lost.

#18
You're her Reward

Your new Mistress is furious about how you treated her during the game. You're tied down instantly — no warning, no chance to speak. Then she ruins your orgasms. Not one. Not two. Three ruined orgasms in a row, each more painful and humiliating than the last. She wants you shaking, crying, and knowing exactly who owns your pleasure now.

#19
You're her Reward

Your new Mistress is preparing revenge.
Is that... a strap-on? Yes.
She pushes you down, spreads your ass, and says, 'You're going to take every inch of this until you beg me for forgiveness.' Then she fucks your ass relentlessly, using you like you're nothing but a toy she already knows is going to break.

#20
You're her Reward

Strip completely and kneel before your new Mistress. Every command is absolute.
Every hesitation is punished.
'What are you waiting for?' she asks with a cruel smile. 'Bow to your Queen.'
And you do — because she doesn't ask twice.

#21
You're her Reward

Your Mistress plays with your cock using everything except her hands - her feet, her mouth, toys, pressure, friction, anything she chooses. You're forced to the edge again and again until she finally lets you cum. Then she scoops your load with a spoon and feeds it to you: 'Open. You're my cum dumpster now.'
You swallow because she wants you to.

#22
You're her Reward

She flips you over, spreads you effortlessly, and shoves a plug deep into your ass. The moment it locks inside you, she leans in and whispers: 'As long as this stays in, you're no longer human... you're my sex doll.'
From now on you obey every command — instantly, mindlessly, completely. A doll doesn't think. A doll doesn't complain. A doll exists only to serve its Mistress.

#23
You're her Reward

You have 5 minutes to hide from your new Mistress somewhere in this "dungeon."
If she finds you — and she will — you belong to her completely. No resistance. No negotiation. Just an obedient toy she gets to play with however she wants.
Run, loser. She enjoys the chase.

#24
You're her Reward

Kneel before your new Mistress.
Worship her feet with your mouth, your tongue, your whole broken ego. Then ask her — clearly, desperately — to strip away the last shred of your dignity and turn you into her personal slut. Every command she gives, you obey instantly. Every. Single. One.
