SEX CARDS GAME

8 EASY RULES

1. If you have the same number of points after 4 weeks, a flip of a coin will decide the winner.

2. You don't have to start the next week right after finishing the previous one. You can start after a few days or the following week.

3. The winner of the entire challenge (4 weeks) receives a prize. The loser must participate in the winner's reward and it is also to be in the format of the whole challenge week. The winner comes up with an idea for a reward.

4. Both players draw the challenge on the same day and have the same amount of time to complete their weekly missions.

5. The **ULTIMATE REWARD** is also due to the player who wins the entire 3-month challenge consisting of 12 weekly challenges. Here too, the loser must participate in the winner's reward, and the challenge has to last from 2 weeks to 1 month.

6. You don't need to tell your partner what your challenge is unless your weekly mission requires it.

7. You can replace any of the ideas on the card with your idea using the blank cards.

8. If you both score the maximum points (112) you both get both a reward and a punishment. (1 week reward for her, 1 week reward for him).
