- [ ] 1. You will insert the Lush and call me on video. I'll control the Lush toy while you kneel in front of the camera. Every time I raise the intensity, you must moan my name out loud. If you hesitate, I'll cut the toy to zero and make you beg for more.

- [ ] 2. You will put the Lush toy in and send me a live stream of your face only. I'll control the toy, and your task is to keep your expression neutral, as if nothing is happening. If I catch a single twitch, I'll deny you release for the entire night.

- [ ] 3. You will wear the Lush toy during our call. Each time I buzz it, you must remove one piece of clothing. By the time I'm finished edging you, you'll be naked, shaking, and completely exposed to me through the screen.

- [ ] 4. You will insert the Lush toy and sit with your legs spread in front of the camera. I'll edge you relentlessly, and every time I stop, you must slap your own pussy and whisper "thank you" before I start again.

- [ ] 5. You will put the Lush in and record yourself saying humiliating phrases. With each surge from the toy, you must repeat them louder: "I'm your slut. I'm your whore. I'm your toy." You'll send me the file as proof of your obedience.

- [ ] 6. You will wear the Lush toy while texting me. Every time I send you a short vibration, you must reply instantly with one filthy confession. If you fail to reply within ten seconds, I'll punish you by keeping the toy on low for an hour straight without release.

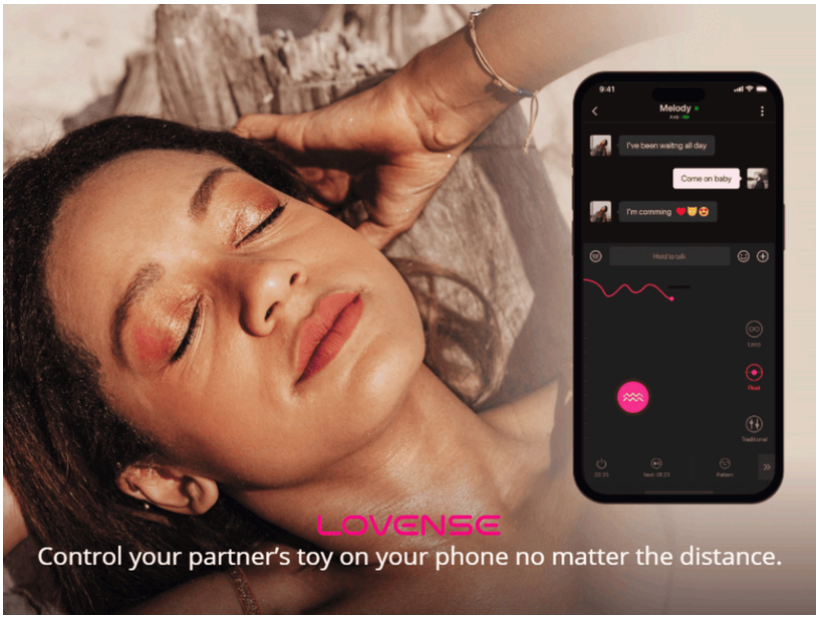

WHY LOVENSE?

Lovense makes the world's most advanced remote-control sex toys.

They connect to an app, which means your partner can control your pleasure from anywhere - across the room, across the city, or across the world. For Real.

With a tap on their phone, they decide your speed and intensity.
Your Partner can choose when you're allowed to finish... or if you'll be denied completely. ;)

Perfect for couples in long-distance relationships, public teasing, or anyone who loves taking or giving up control.

And here's the thing: Lovense isn't just a small brand.
They already have 20+ million customers worldwide, which makes them the global leader in smart sex toys.

And personally? **Their toys are my all-time favorites** - nothing else comes close when it comes to control, creativity, and intensity.
This isn't just "play" anymore. It's control, technology, and intimacy - combined.

HOW DOES IT WORK?

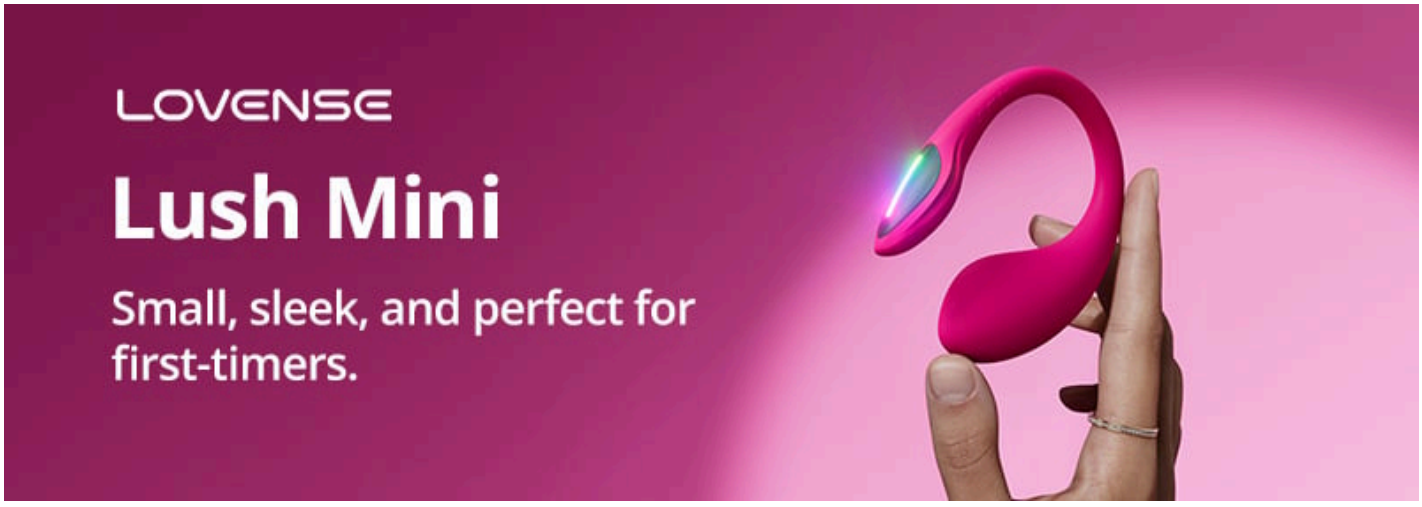

Based on Lovense's newest toy - **the Lush Mini** (which I personally own and highly recommend) - let me show you how it works.

It's super easy: you pair the toy with your phone using the Lovense Remote App. From there, you (or your partner) can control everything - the speed, the patterns, even custom vibes.

If you're close, it works perfectly over Bluetooth. If you're apart, the app connects through the internet, so your partner can take control from literally anywhere in the world. 🌍

The Lush Mini is small, quiet, and powerful, making it perfect for discreet public play, long-distance teasing, or intense solo sessions at home.

- [ ] 7. You will insert the Lush toy and blindfold yourself on camera. I'll control the app and speak commands through audio. Each time the toy surges, you must guess what level of vibration I used – if you guess wrong, you spank yourself until I'm satisfied.

- [ ] 8. You will wear the Lush during a voice call. You must hold the phone close to your mouth and moan with every surge of vibration, letting me hear exactly how helpless you are without seeing you.

- [ ] 9. You will put the Lush toy in before bed and keep your phone on the pillow. All night, I'll trigger the toy at random through the app. You're forbidden to orgasm until morning. If you fail, you'll confess and face punishment.

- [ ] 10. You will insert the Lush toy and go about your day with it inside. Whenever I decide, I'll trigger the vibrations remotely. Your task is to send me a photo every time it buzzes, no matter where you are, showing me your flushed face or trembling body.

- [ ] 11. You will wear the Lush toy and place your phone across the room while we're on call. Each time I surge the toy, you must crawl to the phone, moan to the screen, and crawl back before I edge you again.

- [ ] 12. You will insert the Lush and hold ice against your nipples while on camera. Every time the toy pulses, you must press the ice harder. When I cut the toy off, you may remove it.

- [ ] 13. You will put the Lush toy in and record a countdown video for me. With the toy buzzing, you'll count down slowly from 50 while touching yourself. If you lose focus or miscount, you'll start from the beginning until you succeed.

◯ 24. You will wear the Lush toy and send me the control link before bed. I'll edge you for hours and then shut the toy off without letting you orgasm. You'll sleep frustrated, and in the morning you must thank me with a video confession.

◯ 25. You will insert the Lush toy and send me the link. I'll edge you while ordering you to keep your tongue out the entire time, drooling pathetically until I allow you to close your mouth.

◯ 26. You will insert the Lush toy and place a glass of water between your thighs. I'll control the app while you try to keep the glass steady. If it spills, you'll drink it off the floor on camera.

◯ 27. You will insert the Lush toy and sit in front of a mirror with your phone behind you. I'll control the toy while you're forced to watch yourself being used, humiliated by your own reflection.
