How to use "WOULD YOU PREFER" Cards?

Prepare all the cards and put them on the deck

The first player draws a card from the top of the deck.

1

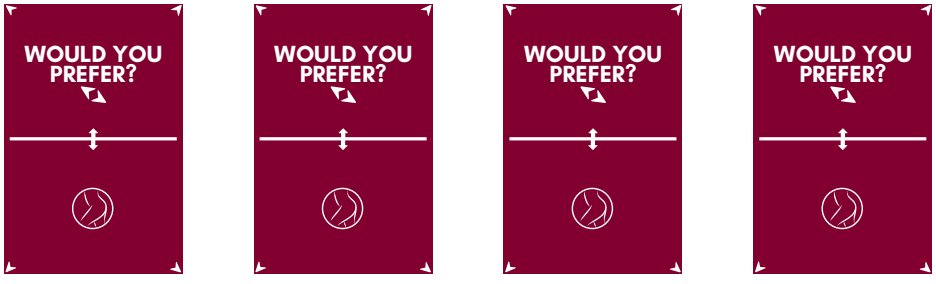

The player who got the card **chooses** the activity he/she wants to perform.

2

The other player **must perform the other** activity from the card.

After completing both activities from the card, this time the **other player takes the card and chooses an activity.**

Then you **take turns** taking a card and choosing an activity.

6 EASY RULES

1. You take turns playing - first, player 1 takes a card and chooses an activity, and player 2 makes a second challenge, then player 2 takes a card and chooses an activity, and player 1 makes a second challenge

2. Most challenges are made so that players can complete their challenges at the same time. (but not all).

3. Each of you can refuse to do the second challenge once.

4. The winner of the game is the player who completes more challenges. If you scored the same number of points, you are both winners.

5. Each player can say a safe word 2 times. Then his activity is stopped. The third time, the player loses, and another player can still perform the activity to score more points and win.

6. You can replace any of the ideas on the card with your idea using the blank cards.
